Poker tool software company

PokerTracker Software, LLC is the name of a poker tool

software company that produces the PokerTracker line of poker tracking and analysis

software.[1][2] PokerTracker's software imports and parses the hand histories that

poker sites create during online play and stores the resulting statistics/information

about historical play into a local database library for self-analysis, and for in-game

opponent analysis using a real-time Head-up display.[1]

The software allows the user to

monitor each poker session's profit or loss, hands played, time played, and table

style. It calculates and graphs statistics such as hands per hour, winnings per hand,

winnings per hour, cumulative profit and loss, and individual game profit and loss

across multiple currencies.

PokerTracker Software, LLC produces poker analysis software. Examples include

PokerTracker Holdem v2, PokerTracker Omaha v2, PokerTracker 3 Hold'em (PT3) for Texas

Hold 'em, PokerTracker 3 Omaha (PTO) for Omaha Hold 'em, PokerTracker Stud for Stud

poker, and TableTracker.[3] The company previously developed the PokerAce Head-Up

Display, also known as PokerAce HUD or simply PAHUD, which provides real-time

information for live online poker play;[4] the functionality from this formerly

separate application was eventually incorporated within PokerTracker 3. Collectively,

the company's software has been described as "among the most comprehensive software

programs in the online poker industry" by PokerSoftware.[5] The company subsequently

developed PokerTracker 4 in 2012 and 2013, which is its most recent software

development.

PokerTracker 3 [edit]

The general info tab view of a sample database in PokerTracker Holdem v3.00 beta 29, including user customized columns such as final tables and highest percentile finish.

In September 2009, the company announced that as of March 31, 2010, PokerTracker Holdem v2 would no longer be supported. The decision was made because PokerTracker 3 had been released on May 15, 2008, nearly two years prior to the end-of-life date. The company felt that discontinuing support of v2 would avail resources which could be dedicated to improving PT3 and providing exceptional customer service.[6][7] Similarly, on December 31, 2010, PokerTracker Omaha v2 would no longer be supported, as its features have been completely integrated into the PokerTracker 3 product line.[8]

PokerTracker 3 supports online poker from the following poker networks and/or sites: 888 Poker Network, Bodog, Boss Media, Cake Network, Cereus Poker Network, Entraction Poker, Everest Poker, Full Tilt Poker, IPoker, Microgaming, Merge Gaming Network, OnGame, PartyPoker, PokerStars and Winamax.[9] PokerTracker is available natively for both Microsoft Windows and Mac OS X-based computers.[7]

PokerTracker 3 competes against several similar programs.[10] According to Total Gambler, its most notable competitors are Hold'em Manager and PokerOffice,[10] while Pokersoftware considers only Hold'em Manager to be a serious competitor.[11]

PokerTracker 4 [edit]

PokerTracker 4 is poker tracking software that is designed for several types of online poker: No-Limit, Limit, or Pot-Limit cash games, Sit N' Go's and Multi-Table Tournaments for both Texas Holdem and Omaha players.[12] It is compatible with almost all online poker websites' software and interfaces.[13] PokerTracker 4 began public beta testing in March 2012.[14] In August 2012, the company commercially launched a Microsoft Windows version of PokerTracker 4.[15] In January 2013 as PokerTracker version 4.05.10 was rolled out, the company began alpha testing an Apple OS X version of the software.[14][16] PokerTracker 4 was produced from scratch rather than by refining PokerTracker 3 and other earlier versions.[17]

On most online poker sites, players can have the client software create a locally stored text file that records the hand history as shown in the 'Sample Hand History' example. These hand histories summarize the details of the hand in a format that can be parsed by computer software. PokerTracker reads these files and extracts the relevant information, which it converts into a database for later review or statistical analysis.[11] The software is capable of combining hand history details of multiple accounts from different online poker services, which allows a user to aggregate his or her data.[18] Statistical summaries can be consolidated from different poker sites regardless of whether the user's screen name is the same at each site.

PokerTracker is capable of analyzing cash ring games in which players play for cash during each hand, sit and go tournaments in which players compete for set prizes after the prescribed number of competitors join the tournament, and multi-table tournaments in which players compete for tournament prizes based on the total number of entries at the scheduled start time. Statistics can be tracked by position, session, tournament, best & worst hands, and hand results. This helps the user analyze statistics based on starting hand or final hand. The software also enables the user to replay any specific hand.[19]

The software's database uses tournament summaries such as the 'Sample Tournament Summary' example and hand histories to provide a three section summary (see infobox screenshot). The top section of the general information tab provides tournament summaries of profit/loss as well as ordinal placement summary. The other sections summarize situational statistics based on the level of the blinds and the starting hand. Additional tabs in the software produce detailed information for various statistical interests.

PokerTracker's probability graphs, as well as historical statistics of the hands a user and his or her opponents have played, enable the user to analyze conditional statistical possibilities and optimal betting amounts. The situations it analyzes are conditional on the opposition's playing characteristics and the player's position relative to the dealer.[20] Graphs can be produced for a single session or for any part of one's playing history.[19] One of the biggest improvements in PokerTracker 3 over PT2 is that it is fully customizable so that all statistics and reports can be tailored to the individual user.[11][21] The Guardian claims most serious players use PokerTracker during online play to constantly calculate situational optima.[22]

PokerTracker 3 version v3.00 beta 29 Profit graph

PokerTracker 3 is also

known for its integrated heads-up display, a transparent video overlay data presentation that makes statistics and notes are readily available during play. The HUD allows an online poker player to focus his attention on the poker table he or she is playing at, rather than on the PokerTracker application. The HUD provides a vast array of realtime statistics for in-game analysis, customizable to the user's preference.[19]

In addition to the statistics available constantly during play on the poker window, detailed statistics are available in a pop-up window, accessible via a single mouse click.[23] Marbella Slim of the Daily Star used the vision of Arnold Schwarzenegger's Terminator character in an analogy with the HUD: "In some scenes, you get to see what the robot Terminator is seeing and he has all these data streams in front of his vision - it's a HUD or a head-up display." [24] Unlike other poker tracking products, PokerTracker 3 includes a HUD as part of the basic program.[11] The PT3 HUD, which automatically overlays a player's opponents' statistics next to their avatars, is essentially a built-in version of the formerly available PokerAce HUD.[21]

PokerTracker

v2 will no longer be supported after March 31, 2010.

PokerTracker 3 also offers a

monthly subscription-based service called TableTracker. TableTracker is an integrated service that automatically identifies ring tables with competition suitable to the user's playing style.[21] PokerTracker's servers constantly monitor which players are playing and what tables they are playing at on various major poker sites,[25] which allows TableTracker to find the weakest players across multiple online poker websites.[19] The user can search based on the software's built in scoring system or any other statistics of his or her choosing.[25]

Use and legality [edit]

PokerTracker

3 includes a HUD overlay as seen in this Pokerstars online poker session

Serious poker

pros and casual amateurs alike can benefit from the poker tracking software,[26] and poker magazines such as Card Player repeatedly remind poker players of the usefulness of tracking software.[27][28] Total Gambler says that in addition to experience and skill the other necessity for a gambler to become a professional poker player is a good software package such as PokerTracker.[29]

Several websites portray PokerTracker as

either the world's leading or the world's most popular poker tracking software. For example, Pokersource describes it as "the most popular poker tracking and analysis software available"[2] and Party Poker describes PokerTracker as "the original and largest piece of poker tracking software".[21] PokerSoftware says "Poker Tracker has been the industry standard ... for years".[11] Total Gambler says that for more than a two-year period PokerTracker 2 was the "prominent force in online poker tracking", but at the time of its December 2008 review it speaks of this leadership position in the past tense, noting that PT3 had not yet been "fully released" at the time of its testing.[10]

Major online card rooms forbid the use of software that gives a player an

"unfair advantage." This typically includes software that allows players to share their hole cards with other players during live play and software that automates decision making. Since PokerTracker software doesn't fit into either of these categories it is generally allowed on most sites, including industry leader PokerStars.[2][30] Legality aside, some players feel the use of PokerTracker takes away from the game; for example, Victoria Coren of The Guardian remarks "there is only one downside [to using PokerTracker]. Where's the bloody fun in it?"[22]

E-A

A rodada de negociações sobre cessar-fogo e reféns, desta vez a betano é boa Doha cessou com desapontamento. Isso ocorre principalmente porque o primeiro ministro israelense Benjamin Netanyahu não deve aceitar qualquer acordo que Hamas possa apresentar como vitória –e algea os mediadores israelenses a condições impossíveis para eles concordarem!

Além da substância de qualquer acordo potencial entre os dois lados é o suco emocional do tanto das relações Israel-Palestina: a batalha pela dignidade nacional e honra. Grandes quantidades dos explosivos foram lançadas a betano é boa Gaza por israelenses desde 7 outubro, devido à humilhação sentida pelos israelitas todos e especialmente líderes israelense'es militares - Tanto desta guerra ao longo mais 10 meses tem sido travada nos ambos lado como uma Guerra De Vingança No entanto também têm grandes consequências estratégicas para as nações palestina

O Hamas verá e apresentará qualquer acordo com Israel que termine a guerra a betano é boa Gaza, leve à retirada das forças israelenses da Faixa de faixa para libertar prisioneiros palestinos como uma vitória. Portanto os negociadores israelitas não concordarão numa total saída do país; estão exigindo presença militar israelense no longo prazo ao largo dos limites entre o Egito-Gabez (Israel) – E um mecanismo seguro capaz por garantir aos terroristas armados Hamás ou outros militares estrangeiros as condições necessárias na vida palestina são liberadas fora deste território - além disso:

Também é difícil imaginar que Netanyahu fará qualquer acordo com o Hamas antes da morte dos principais líderes do Hamás a betano é boa Gaza, principalmente Yahya Sinwar. Quando os militares israelenses encontram singuerra e matá-lo provavelmente haverá reféns israelitas ao seu redor -eo bunker pode ser armadilhado de explosivos "; É provável haver uma luta até a mortes para matar soldados Israelitas ou seus prisioneiros mortos assim como também há um risco maior quando houverem militantes no grupo terrorista islâmico (Hamas)".

Para a maioria do povo de Israel, não há vitória sem o retorno dos reféns israelenses restantes a betano é boa Gaza. No entanto essas negociações deixam claro que Netanyahu colocou seu objetivo impossível da total vitória antes desse regresso seguro (muitos deles podem já estar vivos se mortos pelo Hamas ou bombas israelitas). Há uma possibilidade desses corpos nunca serem encontrados e retornados? Historicamente um étho' israelense foi posto para trás quando os três foram escolhidos como sendo claros no mundo --o termo "apoio" está escrito:

Os especialistas acreditam que a "vitória total" de Netanyahu é mais sobre estender o tempo possível para continuar no poder. O primeiro-ministro está lentamente subindo nas pesquisas, já a betano é boa base - a betano é boa boa parte desertada após os ataques do Hamas – começa Retorno.

As chances de negociações bem-sucedidas entre Israel e Hamas sobre a quantidade dos mediadores da alavancagem estão dispostas para se aplicar aos dois lados à medida que novas conversas recomeçam na próxima semana. Os EUA têm poder significativo a betano é boa relação ao país, tanto no disfarce político fornecido pelos Estados Unidos por seu governo israelense nas Nações Unidas quanto pela capacidade do Estado Islâmico impedir o fluxo das bombas israelenses

Os EUA poderiam dizer que teria Israel de volta se fosse

Atacada pelo Irã ou Hezbollah, mas não forneceria mais bombas para Israel cair a betano é boa Gaza.

Cada um tem uma influência significativa sobre o Hamas: partes da liderança do Hamás estão baseadas a betano é boa Doha, enquanto a travessia Rafah atuou como linha de salvação para Gaza. Há relatos que há 160 mil palestinos escaparam dos horrores das guerras na Faixa e são mais persistentes no Egito com seus vistos; este é outro ponto importante contra os terroristas ou ao povo palestino!

Neste ponto, mais de 10 meses para a guerra com cerca do 40 mil pessoas mortas a betano é boa Gaza e o número dos 1.600 israelenses mortos esta batalha deve chegar ao fim. Não há solução militar limitada neste conflito que nunca tenha havido uma ocupação democrática da Palestina; Deve haver um novo caminho até à negociação final deste grande confronto mas começa por acabar essa Guerra Israel se retirando desta Faixa - os reféns árabes voltarão aos seus países onde haverá paz sem fronteiras entre as duas partes – A criação duma nova fronteira segura no Egito é possível!
