Brazilian programming block broadcast on TNT and SpaceTelevision channel

TNT Sports is a subsidiary of Warner Bros.

Discovery in Brazil responsible for sports broadcasts on TNT and Space channels in the country.

Esporte Interativo started as a television channel, inaugurated on January 20, 2007, with the live broadcast of a Premier League match between Chelsea and Liverpool.

From 2015, it became part of Turner Broadcasting System Latin America.

Turner announced in 2018 the discontinuation of all EI channels in Brazil.

Part of the programming, such as the exhibition of national and international football championships, started to be shown on the Brazilian versions of TNT and Space channels.

With the standardization of Turner's sports channels in Latin America, it started to use the TNT Sports brand as of 2021.

History [edit]

Partnership with RedeTV! and Rede Bandeirantes [edit]

The plan of the Esporte Interativo channel started in 2004, when the marketing agency TopSports launch the brand Esporte Interativo and established a partnership with the TV network RedeTV! to broadcast sports events like English Premier League, UEFA Champions League and NBA.

In September 2004, after fights between TopSports and RedeTV!, the partnership was broken.

Esporte Interativo took their events to Rede Bandeirantes, in three years of partnership it

broadcast events like UEFA Champions League, La Liga, English Premier League and Lega Calcio.[1]

Own channel and growth [edit]

On January 20, 2007, the Esporte Interativo channel started to broadcast free-to-air on satellite Star One C2, on the frequency 980 MHz vertical, replacing Amazon Sat.

On June 10, 2010, the Esporte Interativo channel started to broadcast in São Paulo, channel 36 UHF, and was created the Rede Esporte Interativo, to debut the network an interview with Brazilian president, Luiz Inácio Lula da Silva, was aired.

[2] In 2011 the network renewed the broadcast rights for the UEFA Champions League,[3] and gained the broadcast rights for UEFA Super Cup and UEFA Europa League.

[4] To celebrate the 5th birthday of the channel, was opened a new studio in São Paulo.[5]

In July 2012, Esporte Interativo launched their new SVOD multiplatform product EI Plus in partnership with Log On, and in October, closed a partnership with Yahoo! Brasil and they

launched a new sports website, the Yahoo! Esporte Interativo.

In 2013 the Turner Broadcasting System acquired 20% of the network, becoming a business partner and occupying 2 of 7 members in the administration of the network.[6]

In August was announced a new channel of the network, the Esporte Interativo Nordeste, a regional sports network dedicated for the sports from Brazilian northeast, and the acquisition of six state's championships of the region.[7]

Full purchase by Turner and third channel [edit]

In early 2015, Turner Broadcasting Company, the television arm of Time Warner, has closed a total purchase of Esporte Interativo, acquiring the part that was owned by Top Sports, Edgar Diniz marketing agency.[8]

From January 26, 2015, when the contract was signed, Turner started to control the entire channel.

The programmer provides high investments and a new time in EI, particularly in the technical apparatus.

2015 also saw the debut of a new channel, EI Max.

Soon after, EI Nordeste was renamed EI Maxx and EI Max became EI Maxx 2.[9]

As of July 1, 2017, EI Maxx was renamed Esporte Interativo and EI Maxx 2 was renamed Esporte Interativo 2.

As a result, the free-to-air channel was renamed Esporte Interativo BR.

In addition to the nomenclature change, the three channels also get a new graphic project.[10]

End of the EI channels, moving to TNT and Space [edit]

On August 9, 2018, the channel announced on its Facebook page the deactivation of all of their TV channels in 40 days and moving all of their sports events to TNT and Space channels in Brazil, on their social media and on the over-the-top service EI Plus.[11]

TNT Sports (Brasil) [edit]

On January 8, 2021, WarnerMedia, the parent company of Turner, announced the replacement of the Esporte Interativo brand by TNT Sports, a name that had been used since 2017 by a sports channel of the conglomerate in Argentina, and which would now serve for pan-regional standardization in Latin America.

[12] The new brand was officially adopted at midnight on January 17 across all of the group's social media, including EI Plus, which is now renamed Estádio TNT Sports.

On television, the TNT Sports brand officially debuted during the match between Internazionale x Juventus, valid for the Serie A.[13]

Orangután en Indonesia trata herida en su cara con planta medicinal

Científicos trabajando en Indonesia han observado a un orangután tratando 5 intencionalmente una herida en su cara con una planta medicinal, el primer comportamiento de este tipo documentado.

Comportamiento inédito en orangutanes

Rakus, 5 un macho de orangután de Sumatra, trató una herida en su cara masticando hojas de una planta trepadora llamada Akar 5 Kuning y aplicando repetidamente el jugo en ella, según un artículo publicado en la revista Scientific Reports del jueves.

Después de 5 cubrir la herida con las hojas masticadas, utilizadas en la medicina tradicional para tratar enfermedades como la disentería, la diabetes 5 y la malaria, dijeron los científicos.

Uso de plantas medicinales en orangutanes

Aunque otras especies de primates salvajes son conocidas por engullir, 5 masticar o frotarse con plantas que tienen propiedades medicinales, los científicos nunca antes habían visto su uso para tratar heridas 5 recientes.

Un comportamiento posiblemente innovador

El equipo cree que Rakus utilizó intencionalmente la planta para tratar su herida, ya que la aplicó 5 repetidamente en un proceso que los investigadores dicen que tomó varios minutos.

"Este comportamiento posiblemente innovador presenta el primer informe de 5 manejo activo de heridas con una planta biológicamente activa en una especie de grandes simios", dijo.

Las heridas raras en orangutanes

Los 5 investigadores creen que Rakus probablemente sufrió la herida en una pelea con otro macho orangután, raro en la zona gracias 5 a la "alta disponibilidad de alimentos, alta tolerancia social entre los orangutanes y jerarquías sociales relativamente estables", explicó Laumer.

Esto significa 5 que los orangutanes rara vez sufren heridas, dando a los investigadores pocas oportunidades de observar este comportamiento.

Aprendizaje de la automedicación 5 en orangutanes

En cuanto a cómo Rakus habría aprendido a tratar una herida, una posibilidad es la "innovación individual accidental", dijo 5 Laumer.

El orangután puede haber tocado su herida accidentalmente mientras se alimentaba de la planta y experimentó alivio del dolor inmediato 5 debido a sus efectos analgésicos, lo que le hizo repetir el comportamiento, explicó.

Otra explicación posible es que Rakus aprendió a 5 tratar una herida de otros orangutanes en la zona donde nació, dijo Laumer.
