In this King Casino blog post, we will share some stories from the biggest roulette winners in history. As well as sharing big roulette wins, we'll explain how wins in roulette are made.

What Is The Biggest Win In Roulette?

Roulette has been around since

the 18th century, and over this time, there have been several big winners. One of the biggest recent wins in roulette was won by businessman Pedro Grendene Bartelle. He won an astoundingR\$3.5 million in 2024 playing French roulette.

This incredible win was

luckily caught on camera, and if you want to see his reaction, you can view it here.

His bet ofR\$100,000 on the number 32 landed him a win ofR\$3.5 million, one of the biggest roulette wins in recent history.

Biggest Roulette Winners?

For most gamblers, a

win on roulette is generally small to mid-range in size. Big bets sometimes result in some of the biggest wins. Let's go through some of the biggest roulette winners!

Charles Wells: Let's start with Charles Wells, as he was one of the first big winners of roulette. While playing a European roulette game, he won 23 out of 30 spins.

In 1891, he won a fantastic 2 million Francs. He became known as "the man who broke the bank at Monte Carlo" as the casino ran out of money when he won.

Sean Connery: Sean

Connery may not have the biggest roulette win, but we thought we would mention this acting legend anyway! In 1963, Connery won an astoundingR\$27,000 playing European roulette from betting on 17 three times in a row. That's pretty great, considering the odds of this happening are 1 in 50,653.

Mike Ashley: Billionaire entrepreneur Mike

Ashley won £1.3 million playing European roulette at a casino in London in 2008. He won big from betting on 17.

Phillip Green: Another notable roulette winner is Phillip Green. When playing a European roulette game at the Les Ambassadeurs, London, in 2004, he won a huge £2 million. He is believed to have won another £1 million playing roulette at the same live casino.

What Is The Best Roulette Strategy To Win Big?

Despite people claiming different roulette strategies, such as The Martingale Strategy work, this is not true. Roulette strategies are great if you want to change up your gameplay and provide some structure to your betting.

However, they are not going to increase your chances of winning big. This is because each number has the same chance of landing on any given spin, and, in the end, the casino always wins.

Every casino game, including roulette, has a house edge. The house edge is a statistical advantage that the casino has over its players. In roulette, the 0 and 00 give the casino an edge. The house edge for European roulette is 2.70%, and for American roulette, it's 5.26%.

The different bets in roulette have different chances of landing since they cover varying amounts of the wheel, and their varying payouts reflect this. Outside bets cover more numbers and offer lower payouts, whilst inside bets cover fewer numbers and offer higher payouts.

In the list below, you'll find the different roulette bets, along with their respective odds and potential payouts. The payouts are the winnings based on placing a £1 bet.

Red/Black – Betting red or black has a payout ratio of 1:1. The payout is £1.
