How to

play free poker

At our free tables, all that is at stake is play money, and you can always get more chips when you run out! Thousands of players try out our play money tournaments and ring games every day, as it's the perfect way to learn the game and refine your online strategy. To get started, download our free poker software and create a new Stars Account now - it only takes a couple of minutes. Choose your username (which will be your nickname at the tables), select a password and confirm your email address. Once your registration is complete, you will receive virtual play money chips to join our free games. There are two main types of online poker game: ring games and tournaments. Ring games are the 'classic' type of game that can be joined, and left, at any time. Players can choose how much of their real or virtual funds - known as their bankroll - to bring to the table, and are free to top-up or buy-in again if they lose their chips (and have more in reserve). Tournaments start at a specific time, or when a certain amount of players have registered, and usually require a one-off buy-in to play. Players who lose all their chips in a tournament are knocked out, until there is just one winner remaining. The combined prize pool of all the players' buy-ins is shared between the players who last the longest, with the winner receiving the greatest share. To try our free games, open the software, and select the

'Play Money' option. Then simply choose the game you want to play. If you run out of play money chips, take a seat at a ring game table and you'll receive a free top-up.
