A roundabout bet is made up of 3 singles and 3 any to come (ATC) doubles to twice the stake. If the single bet wins, twice the stake is then used on a double for the other two selections. However if one of the horses odds are less than evens, the full return will be used on the additional bet.

Sic Bo is an ancient Chinese game played with three dice. The object of the game is to predict which numbers will appear on the dice once they are shaken. Bets range from a specific triple with payout odds of 180 to 1 to betting on the value of one of the dice with payout odds of 1 to 1.

The first thing to do before playing the game is to set your bet. After that, there are subtle differences between this version and the European for anybody who may be more familiar with the European rules.

One of the main differences is that there is double zero in American Roulette whereas the European version excludes the use of double zero. Select a chip from one to 500 to the right of the screen and the minimum wager for one bet position is three, and the maximum is 500. The next step is to position or place your bet. The number of potential credits won depends entirely on where the bet is placed as it is defined as a ratio to the bet.

You will also notice there are two buttons in the centre of the screen such as 'Clear' and 'Spin'. The 'Clear' buttons enable you to clear any bets that you may no longer wish to have on the table whereas the 'Spin' button sets the balls rolling. The 'Spin' button then transforms into the 'Repeat' button, which can be used to place the chips in the same place as before.

It is worth brushing up on some keywords and terminology to help you along. 'Straight' refers to betting on a single numbered square explicitly chosen by the player. The straight bet pays a ratio of 35:1 and the bet can be placed on as many numbers as you wish. 'Split' means a single bet on two numbers adjacent to one another and 'Three-Line' is a bet on three numbers. The three-line

bet pays 11:1 and chips must be placed on the bottom edge of the vertical column.
