Bombberman is a game character from the early era of gaming that hasn't been appearing as frequently as he used 3 to and that's why we need to rely on games like Bomber Friends. This game carries the spirit of the 3 original Bomberman games into its gameplay and presentation. You're playing as someone who ends up trapped in a lot of 3 contained spaces filled with a mess of blocks and other threats. The good news is that you're not defenseless, but 3 the bad news is that your tools are as dangerous to you as they are to the blocks and threats 3 around you. You can have a blast, just be careful.

About Bomber

Friends

There's sometimes an odd combination of puzzle, party, and 3 action that appears in certain games. This is one of those games with a stylized and colorful take on the 3 cartoon classic, the round bowling ball bomb. You'll be running around mazes with a view that lets you see where 3 everything is so that you know how to blast your way to the end. It's also about customizing your characters 3 before and during each level to make it your own experience. In some ways, it is a friendly experience, that's 3 bound to blow up your gaming library if you play enough of it.

How to Play

Bomber Friends is a

2D top-down 3 game played with the keyboard. There's currently only one control scheme currently available.

Controls

Up Arrow - Move Up

Down Arrow - Move 3 Down

Left Arrow -

Move Left

Right Arrow - Move Right

A - Place Bomb

B - Taunt

Y - Zoom in/out

You play as

a little humanoid that spawns on one side of an enclosed level. The levels are a mix of unbreakable (solid appearance) and breakable blocks (pattern appearance) arranged throughout. You'll be equipped with bombs that can be placed wherever you're standing and will explode in a blast that travels Up, down, left, and right. These bombs are used to destroy the breakable blocks and eliminate enemies. The goal of each level is to get rid of all the enemies and escape the area.

The humanoid has several stats

indicated by a Sword, a Heart, a Bomb, a Flame, and a Boot. These relate to your Attack, Health, Capacity, Range, and Speed respectively. You can temporarily improve these stats by collecting the related icons uncovered from blowing up blocks. You can also collect gold bars and gold coins which can be used to buy items like Gems. Outside of levels, Gems can be placed in slots for your different stats to improve them permanently. Just remember to avoid Skull icons as these will curse you.

If you need to

unlock the exit door, you'll need to blow up blocks until you find the key. You can also play the Robot Quest for a sci-fi take that has its own collection of levels that are much larger. There's also a place to customize the appearance of your humanoid to turn them into your vision of what a Bomber Friend looks like.

Tips and Tricks

If

you're unfamiliar with Bomberman, the main thing to keep in mind is the available space and reach of your bombs. When placed, bombs act as obstacles and you can't move past them so be careful not to trap yourself. Try to get in the habit of placing bombs as you retreat.

A global technological failure on Friday, interrupted medical services and blocked access to Microsoft Services, which specialists credit as one of the major failures of the double slot TI.

The cause of the interruptions originated from a company called CrowdStrike, which provides software for a wide range of the industry. A update to some of the group's Falcon Sensor software did not work correctly and threw double slot computers with Windows, leading to major technological failures around the world. She said in the era. Here is what we know about the interruption so far.

What is CrowdStrike?

CrowdStrike is an American cybersecurity company founded in 2011 and based in Austin, Texas. Since its creation, it has grown rapidly as it began to offer various services using cloud-based software. It has raised millions through the Internet (cloud). It has raised millions in the Silicon Valley, including Google Venture Capital, employing hundreds or more companies in the world where they are proud to protect 538 Fortune 1000!

The company has become immensely successful in the last decade, with a market value of around \$83 billion. The price of its shares was falling during the negotiation on Friday and CrowdStrike fell drastically after the interruptions; dropping 13% on Friday. While the company's main products are designed to block hackers and malware, CrowdStrike was also hired to investigate major data breaches. The Democratic National Committee (DNC) hired CrowdStrike for investigation of the 2014 hack of the Russian servers; while Sony Pictures hired it for a cyberattack in 2014 linked to North Korea.

CrowdStrike's investigation of the DNC hack also played a small but notable role in the first impeachment of Donald Trump and in the special investigation of Russian interference in the 2024 elections. Trump's theory of a conspiracy, widely repudiated, that CrowdStrike was involved in a cover-up by Democrats was suggested to President Volodymyr Zelenskyy to look into the accusations made by the US against the company?

How did CrowdStrike cause the global interruption?

When CrowdStrike pushed an update for its Falcon software, which interacts with other parts of systems and software like Windows from Microsoft. This caused failures in its components worldwide when it essentially disabled these computers or their parts widely used in the Falcon operational system.

CrowdStrike CEO, George Kurtz, apologized for the program interruption and said the company was due to a code failure.

"This is not a security or cyber attack incident. The problem was identified, isolated and a fix is being implemented", wrote Kurtz on Twitter: "We have directed our customers to the support portal for the latest updates that will continue to provide complete updates on our site."

Adding to the chaos on Friday, another interruption also affected Azure cloud services from Microsoft and caused an additional set of failures. The company said the two interruptions were not related to the operational system at the time of the double slot question; Kurtz said to NBC Today to show "some time" before the systems were
