Finding no Betting Apps on Android devices?

One question we see a lot is from people 3 not being able to find any betting apps on their mobile if it's running Android. The main reason for this 3 is usually location. At the time of writing this, the Google Play Store only allows gambling apps for the following 3 countries/regions each with different limitations;

Allowed Countries United Kingdom United States Australia Belgium Brazil Canada Colombia Denmark Finland France Germany Ireland 3 Japan Mexico New Zealand Norway Portugal Romania Spain Sweden

Available Countries & Limitations

Even in these countries, some limitations might exclude many 3 well-known betting apps. These limitations vary for each country; for example in the UK online casino games, sports betting and 3 Lotteries can be listed subject to licensing requirements. For the full up to date list, including each allowed country's limitations 3 Google has them listed on Play Console Help.

Third Party App Stores

If this doesn't help, there are other app stores where 3 you can find available Android apps (or APK as apps created for Android are often referred to). While you can 3 find most betting apps on third-party Android app stores, be careful as they often aren't the official or most up-to-date 3 versions. While it is an option, we wouldn't recommend using these app stores as they can cause big security risks 3 for your mobile device and its data.
