Bet365 Poker is the UK's most famous poker room on the iPoker network. A company of the same name owns it and is a large bookmaker with millions of players and online bettors.

The room's main feature is the "Premium Tables" available only to Bet365 Poker players. Up to 80-90 exclusive tables are found at NL4 - NL400. Bet365 Poker has a €365 fixed welcome bonus, which is awarded simply by signing up, unlike most competitions.

In this review, we have gathered the most exciting information about this client, as well as:

How is Bet365 different from all other iPoker skins?

What rakeback can I get in the room?

How does Bet365 Poker appeal to regulars and poker fans?

Bet365 Poker bonuses and promotions

Bet365 Poker Bonus Policy differs from its colleagues on the network and other rooms due to its orientation towards high volume players.

The welcome bonus does not depend on the deposit amount. All new players receive the same welcome package simply by registering, which consists of:

A €365 locked bonus, which is automatically activated when you first log into the client.

5 tickets to Saturday's tournament - €100 Bronze Loyalty.

A €1 Spin ticket (if you have played one Twister tournament at least once before) and an opportunity to spin a wheel of fortune with random prizes.

Bet365 Poker rake

Bet365 poker rake ranges from 6.67% to 5%, depending on the stakes.

NL/PL games Players Rake % CAP (EUR/USD/GBP) NL2-NL5 2-10 6.67 0.5 NL10 2 6.67 1 3-10 6.67 2 NL20 2 5 1 3-10 5 2 NL50 2 5 1 3-10 5 3 NL100-NL1K 2 5 1 3-10 5 4

In tournaments, the rake is 10%, in Twister - 7%.

The distribution is carried out according to the "weighted contributed" method; that is, the commission is taken on players' share in the pot. But the Source Based Rake (SBR) system is also in place.

How exactly this system works is unknown, but the player who plays for money from his deposit, and has not previously won in other hands, receives a large share of the rake from the pot.

Bet365 Poker rakeback

On September 30, 2024, the Loyalty Club program was closed. Since then Bet365 doesn't pay

rakeback to players on a regular basis. They host monthly promotions (missions and leaderboards) mainly designed for casual players.

Games and traffic

The iPoker network, which includes Bet365 Poker, is ranked 6th in the PokerScout rankings. Late in the evening, the number of online connections reaches 7,000. That is, approximately 18:00 - 20:00 GMT.

The total traffic at iPoker increased by 30-40% in 2024. This occurred due to the migration of nearly all poker rooms from the closed Microgaming network and several other sites like Swiss Casinos Poker, Svenska Spel, PokerMatch.

But iPoker isn't stopping there. In an interview with our website, Network Director Jörg Nottebaum declared intentions to become one of the leaders in online poker.

Cash Games: Hold'em, Omaha, Shortdeck, Fast-Fold

Beloved by everyone and everywhere, No-Limit Hold'em in 6-max format is the most popular game at Bet365 Poker. Over 90% of all cash tables in the room are played in this format.

A significant portion of the traffic on NLH is the "Premium Tables" (NL4 - NL400), which are exclusively available to Bet365 customers.

The rest of the tables in the lobby of the room are:

Omaha - the stakes are up to PLO5K. Most games are found at PLO4 - PLO600; traffic is inconsistent at higher stakes.

6+ Hold'em - only micro stakes.

Fast-fold poker (Speed) - NL5-10

A feature of all cash tables is that there are no waiting lists. Players' nicknames are hidden in the lobby and at the table until the first blind is posted. You can sit out only at all tables at once. In other words, it is not possible to table-select.

Tournaments at Bet365 Poker (MTT)

Bet365 Poker has never been considered a must-have MTT poker room.

Bet365 Poker offers up to 5-6 tournaments each hour from early morning till late at night. These are mostly PKO tournaments in a turbo format with buy-ins ranging from €1 to €10. The number of participants is rarely more than 200-300. That is, there are several frequent micro stakes MTTs with small and recreational fields.

Tournament players who like small buy-ins of up to €10 or are searching for numerous tournaments for €10-€50 should have a closer look at this client.

Main MTTs:

The Main Sunday Sweat €75,000 GTD for €10 and its weekday version with a €12,500 guarantee for €50.

€12,500 GTD Fists of Fury Rebuy for €50.

Big Sunday Classic €10,000 GTD for €200.

Twister Spins

Twister Spins are available in two varieties.

Classic lottery SnG tournaments for 3 players with random prizes at seven stakes from 1 to 100 euros.

Age of The Gods is the result of Playtech's experiments in combining poker and casino. In addition to the usual prize money, one of 4 jackpots is drawn at them. The jackpot game is launched at random, and the only way to win it is to open three coins (out of 20 total) with identical symbols in 30 seconds.

These Twisters are available in three stakes: €1, €5, €10 and have a complex structure: 100 chips stack size and every 2 minutes blinds rise.

The bottom line:

Bet365 has a classic game set (6-max cash (NLH, PLO), Spins, and MTT). Unless you play NL400+, you'll find enough action. Pay attention to "Premium Tables," which feature a unique and

softer pool.

Field softness

Bet365 is a world-famous bookmaker founded in 2000. The website is available in 20 languages and uses 18 currencies. That is, there is massive traffic of bettors who try to kill time playing poker. Some of them end up on Premium Tables. Therefore, there are plenty of amateurs in the room.

A large spike of new rooms in the first half of 2024 played a significant role in the rise of recreational players. The network intends to actively enter and participate in the Latin American and Asian markets.

Attitude towards professional players

Tracking software - yes.

Pre-flop chart - no.

Bumhunt - no.

Mining - no.

Seating scripts - no.

Bet365 and iPoker attempt to create and keep a balance between "regulars" and "hobby players."

Table select and bumhunt were restricted with a purpose to preserve the "poker ecosystem."

Otherwise, the attitude towards professionals is loyal. You can use pro-software and multi-table.

We are not aware of any cases of account bans for winning.

Software review

Playtech developed the poker room client. There are versions for all desktop and mobile platforms, including Windows, Android, and iOS. A worldwide software upgrade is scheduled for 2024.

Main features of the client:

Multi-language localization;

No waiting lists;

The players' nicknames are hidden in the lobby and at the table until the first blind is posted;

You can sit out only at all tables at once.

Support for all trackers (HM3, PT4, H2N) and HUD.

It also allows for complete customization of table look and interaction with helper applications. The iPoker Tools application is required to install layouts and further software modification.

Mobile app

The mobile client is quite similar to the PC version. It offers all poker games, and the main lobby has convenient access tabs for the most popular formats. Vertical orientation provides more comfort while playing on a smaller device. Transfers, deposits, and cashouts are all possible.

The Bet365 Poker mobile app is available on both Android and iOS.

Reliability and trustworthiness

Launched - 2024.

License - Malta.

RNG verified - iTechLabs.

Identity verification

Bet365 was voted the world's most popular bookmaker between 2009 and 2024. Since 2010, eGaming Review magazine has included this company in its annual Power 50 list of the most influential online gaming companies.

Not only does this poker room hold a famous Malta gaming license, but it is also part of a well-known gaming company with an immaculate reputation.

It is tough to find any negative reviews about this room in the poker community. Therefore, we highlight the level of its reliability as very high.

Deposits and withdrawals

The transaction process in the poker room is well developed. No commissions are taken on any transfers.

Cashouts are approved quickly for verified accounts, and the money is credited within the time limit agreed upon for various payment systems. This can take up to 5 working days for credit

cards and up to 48 hours for e-wallets.

Please note that the availability of payment methods may depend on the legal status of online poker at the country of registration.

Verification takes place in a standard way. Copies of your passport (or driver's license) and a document confirming your place of residence must be sent to the support address ([email protected]).

Pros and cons to play at Bet365 Poker

Bet365 is a world-renowned British bookmaker with an impeccable reputation, efficient work with money transfers, and a huge player base.

Bet365 Poker has tried to stand out from the crowd as a poker room by creating its own set of bonuses and a separate "Premium table" pool.

The only drawback is the lack of cash game choices (only NLH and PLO).

Who should consider Bet365 Poker?

First of all, cash game players who like playing on the iPoker network. Premium Tables can be added to the standard tables. Suitable for novice poker players trying to grow their bankroll with welcome bonuses and freerolls.

Os massacres de 1994 como um genocídio contra a minoria tutsis do país.

30o aniversário do genocídio jogo de cartas bacara que os extremistas 3 hutus se tornaram abateu cerca de 800.000 pessoas;

, a maioria deles Tutsis jogo de cartas bacara uma campanha orquestrada pelo governo.

Muitos ruandeses criticaram o 3 secretário de Estado dos EUA, Antony Blinken por não especificar que os genocídio visavam aos tutsis quando ele escreveu no 3 domingo: "Nós lamentamos muitos milhares deles e outros cuja vida foi perdida durante 100 dias da violência indescritível".

Respondendo à pergunta 3 de um jornalista sobre o post do Blinken na plataforma social X, Kagame disse acreditar que chegou a acordo com 3 as autoridades dos EUA há uma década para não expressar qualquer crítica ao aniversário.

"Dê-nos esse dia", disse ele, acrescentando que 3 as críticas sobre "tudo o quanto somos considerados não ter" são indesejadas no aniversário do genocídio.

As autoridades ruandesas insistem que 3 qualquer ambiguidade sobre quem foram as vítimas do genocídio é uma tentativa de distorcer a história e desrespeitando o memória 3 das vitimas.

O presidente Joe Biden emitiu um comunicado no domingo, dizendo: "Nunca esqueceremos os horrores daqueles 100 dias; a dor e a perda sofridas pelo povo de Ruanda ou pela humanidade compartilhada que nos conecta todos.

A questão de como memorializar o genocídio decorre das alegações que a Frente Patriótica ruandesa - grupo rebelde, desde 1994 e sem contestação do Ruanda – realizou seus próprios assassinatos por vingança durante ou após este.

Kagame já disse anteriormente que suas forças mostraram contenção. Ele afirmou que o jogo de cartas bacara um discurso no domingo, os ruandeses estão enojados com o que ele descreveu como a hipocrisia das nações ocidentais que não conseguiu parar de genocídio".

O genocídio foi inflamado quando um avião que transportava o então presidente Juvénal Habyarimana, um hutu e Hutu (um Hutu), caiu sobre Kigali no jogo de cartas bacara 6 de abril 1994.

Os tutsis foram culpados por derrubarem a aeronave e mataram os Presidentes do país; tornaram-se alvos dos massacres liderados pelos extremistas da etnia humana durante 100 dias: alguns moderados também morreram na tentativa para proteger membros das minorias Tutsi

Como parte das comemorações de uma semana, bandeiras voaram no jogo de cartas bacara meio pessoal e lugares públicos por todo o Ruanda foram orientados a manterem os entretenimento quieto.

As autoridades ruandesas também enfrentam questões sobre como apresentar atividades de comemoração, reconhecendo os esforços dos hutus para proteger seus vizinhos tutsis.

"Você vê, aqueles que estão negando o genocídio dizem: 'Ah! comemorar? É uma grande barreira séria à unidade. Temos de avançar e esquecer a comemoração'", disse Naphtal Ahishakiye, secretário executivo do grupo proeminente dos sobreviventes no jogo de cartas bacara Kigali "Eles são errados". Eles têm uma ideologia genocida; eles não querem se lembrar daquilo."

A declaração de Macron veio três anos depois que ele reconheceu a "responsabilidade esmagadora" da França - o aliado europeu mais próximo do Ruanda no jogo de cartas bacara 1994- por não ter conseguido parar com os deslizamentos no massacre.

Em fevereiro, os EUA pediram a Ruanda que retirasse suas tropas e sistemas de mísseis do leste do Congo pela primeira vez descrevendo o M23 como um grupo rebelde apoiado por Ruanda.

Especialistas da ONU disseram ter "evidências sólidas" de que membros das forças armadas do Ruanda estavam realizando operações lá no jogo de cartas bacara apoio ao M23, cuja rebelião causou o deslocamento para centenas e milhares na província norte-coreana.

Kagame disse na segunda-feira que o M23 está lutando pelos direitos dos tutsis congoleiros, com pelo menos 100.000 deles agora buscando abrigo no jogo de cartas bacara Ruanda depois de fugirem ataques no leste do Congo.

As autoridades ruandesas dizem que querem deter rebeldes, incluindo extremistas hutus responsáveis pelo genocídio.

A composição étnica do Ruanda permanece praticamente inalterada desde 1994, com maioria hutu. Os tutsis representam 14% e os Twa apenas 1% dos 14 milhões de habitantes deste país ndia

O governo dominado por Tutsi de Kagame proibiu qualquer forma da organização ao longo das linhas étnicas, como parte dos esforços para construir uma identidade Ruanda uniforme. Os cartões nacionais não identificam mais os cidadãos pelo grupo étnico e as autoridades impuseram um código penal duro que processa aqueles suspeitos negam o genocídio ou a "ideologia" atrás dele

Mas alguns observadores dizem que a lei tem sido usada para silenciar os críticos, incluindo como construir uma unidade duradoura e reconciliação.
