Introduction

Oasis Poker (sometimes incorrectly referred to as Caribbean Stud Poker or Caribbean Poker, which is a different game) is a casino poker game, meaning that it's derived from classic player vs player poker, but instead the player plays against the house. Oasis Poker is a derivative of Caribbean Stud Poker that allows the player to discard undesirable cards to receive a replacement. Oasis Poker is played with a standard 52 card deck.

We are aware of Oasis Poker being offered at Net Entertainment, Betsoft, GameSys and Galewind casinos.

Play Structure

Initially the player places an 'Ante' wager and the dealer will deal out 5 cards to the player and themselves. All but one of the dealers cards are dealt face down (often referred to as 'Hole' cards). The player then has to make the decision to either Fold their hand – losing their Ante wager – discard up to 5 cards or 'Call'. Where the player chooses to discard cards they will be charged a fee equal to the Ante bet for each card they exchange. This fee is not a bet and will not be returned regardless of the outcome of the hand. If the player chooses to Call – either before or after discarding cards - they have to place a bet twice the size of the Ante wager then the dealer's hole cards are revealed and the hands are compared.

Hand Comparison

Oasis Poker ranks hands according to a hierarchy common to poker games which is explained below (strongest to weakest);

* Royal Flush – The Ace, King, Queen, Jack and Ten cards all of the same suit.

* Straight Flush – five numerically adjacent cards of the same suit (Example – 4, 5, 6, 7 and 8 of Diamonds). Where both the player and dealer hold a Straight Flush the hand with the highest card is considered the winner.

* 4 of a Kind – four cards of matching rank (Example - 7 of Hearts, Clubs, Diamonds and Spades). Where both the player and the dealer hold 4 of a Kind the hand with the higher rank is considered the winner.

* Full House – three cards of the same rank and two cards of a different but matching rank (Example – 8 of Hearts, Clubs and Diamonds and Jack of Spades and Hearts). Where both the player and dealer hold a Full House, the hand with the higher rank 3 of a Kind is considered the winner.

* Flush – five cards of the same suit (Example – Ace, 8, 5, 2 and Queen of Spades). Where both the player and dealer hold a Flush the hand with the highest card is considered the winner. Where the highest card is matched the second highest is considered and so on.

* Straight – five numerically adjacent cards ignoring suit (Example – 7 of Spades, 8 of Spades, 9 of Clubs, 10 of Diamonds and Jack of Diamonds). Where both the player and dealer hold a Straight the hand with the highest card is considered the winner.

* 3 of a Kind – three cards of the same rank with 2 unmatched cards (Example – 9 of Spades, Clubs and Hearts with any two other cards that are not the 9 of Diamonds or a matching pair). Where both the player and dealer hold a 3 of a Kind, the hand with the higher ranked 3 of a Kind is considered the winner.

* Two Pairs – two sets of two cards of matching rank with one unmatched card (Example – 4 of Clubs and Hearts, 8 Clubs and Spades and a fifth unmatched card). Where the player and dealer both have two pairs, the hand with the highest pair is considered the winner. If both hands have matching top pair, the higher of the two lower pairs is considered the winner. Where both pairs are matched, the hand with the higher 'Kicker' (final unmatched card) is considered the winner.

* Pair - two cards of matching rank with three unmatched cards (Example – 6 of Clubs and Hearts and any three other cards that are not the six of Spades or Diamonds and are not of matching rank). Where the player and the dealer hold a matching pair, the hand with the highest Kicker card wins. If the Kicker also matches, the hand is decided by the second Kicker then the third if the second Kickers also match.

* High Card – any five unmatched cards ranked as the highest card (Example – 5 of Spades, 9 of Clubs, 7 of Clubs, 2 of Hearts and Ace of Diamonds would be considered 'Ace High'). In the instance where both the dealer and player have hands of matching value by the above table the hand is considered a push and the player's bets are returned.

Payouts

As with many other poker based casino games, there is a qualification hand for the dealer to play. As such payouts vary depending on whether the dealer qualifies or not. The dealer qualifies if their hand is Ace/King or better.

If the player loses all bets placed are lost. If the player Folds they lose their Ante bet. If the player wins payouts are decided as follows;

* If the player wins and the dealer does not qualify the Ante bet is paid out at 1 to 1 while the Call bet pushes.

* If the player wins and the dealer does qualify the Ante bet is paid at 1 to 1 and the Call bet is paid according to the following payable;

| Hand | GameSys Payout* | Payout |
|-----------------|-----------------|----------|
| Royal Flush | 100 to 1 | 100 to 1 |
| Straight Flush | 50 to 1 | 50 to 1 |
| Four of a Kind | 26 to 1 | 20 to 1 |
| Full House | 8 to 1 | 7 to 1 |
| Flush | 5 to 1 | 5 to 1 |
| Straight | 4 to 1 | 4 to 1 |
| Three of a Kind | 3 to 1 | 3 to 1 |
| Two Pairs | 2 to 1 | 2 to 1 |
| Pair | 1 to 1 | 1 to 1 |
| Ace/King | 1 to 1 | 1 to 1 |
| House Edge | XXX | 0.47% |

* This payable is only used on the 'Without House Edge' version of Oasis Poker. It should be noted that when playing the Without House Edge games that the house take a 10% cut of any winnings at the end of the session.

Alternative Discard Rules

Galewind software offer an alternative discard rule. Instead of being charged a full Ante bet for each card discarded the charges for discarding different numbers of cards are as follows;

Number of cards discarded Cost 1 1xAnte 2 2xAnte 3 3xAnte 4 2xAnte 5 1xAnte

With this rule Galewind software also make an adjustment to the Call bet payable;

| Hand | Payout |
|-----------------|----------|
| Royal Flush | 100 to 1 |
| Straight Flush | 50 to 1 |
| Four of a Kind | 20 to 1 |
| Full House | 6 to 1 |
| Flush | 5 to 1 |
| Straight | 4 to 1 |
| Three of a Kind | 3 to 1 |
| Two Pairs | 2 to 1 |
| Pair | 1 to 1 |
| Ace/King | 1 to 1 |
| House Edge | 0.55% |

Jackpot Bet

The GameSys, GamesOS and Galewind software Oasis Poker games also offer a side bet referred to simply as the 'Jackpot' bet. This side bet is optional but if the player chooses to place the Jackpot bet it costs R\$1 and the results are based only on the player's final hand (after any

discard/replacements). The payouts for the Jackpot bet are provided below;

Hand Hand Probabilities GameSys* GamesOS Galewind Royal Flush 0.00000153908 1000 1000
Jackpot Straight Flush 0.0000138517 500 500 10% of Jackpot Four of a Kind 0.00024 200 200
500 Full House 0.001441 70 100 100 Flush 0.0019654 50 60 50 Straight 0.003924646 40 40 3 of
a Kind 0.021128451 25 Jackpot Range NA NA 25000-110280* Break Even Value NA NA
218009.7 House Edge 3.05% 51.69% 31.50%-56.44%*

* This payable is used for both the normal and 'Without House Edge' versions of Oasis Poker at GameSys casinos.

**The Galewind website lists the theoretical minimum House Edge for the Jackpot bet as 24.04% which would equate to a Jackpot size of R\$135793.56. Our Jackpot range is based on the reset value and the maximum value we've seen.

Calculating the House Edge and Break Even value for the Jackpot Bet

It is possible to calculate the House Edge and break even value for any jackpot value at the Galewind game simply by using the Hand Probability figures.

To calculate the House Edge we multiply the Paytable values by the probabilities, sum the results and subtract the remaining possibilities. So if we have a Jackpot value of 94000 the calculation would be as follows;

$$94000 \times 0.00000153908 + 9400 \times 0.0000138517 + 500 \times 0.00024 + 100 \times 0.001441 + 50 \times 0.0019654 - (1 - (0.00000153908 + 0.0000138517 + 0.00024 + 0.001441 + 0.0019654))$$
$$0.14467352 + 0.13020598 + 0.12 + 0.1441 + 0.09827 - (1 - 0.00169639)$$
$$0.4309795 - 0.9998303609 = -0.3626$$

So the House Edge for this Jackpot size is 36.26%

House Edge*

The House Edge of Oasis Poker using the standard payable and across the full round of wagering (Ante bet, Discard fees and Call bet) and assuming that the player plays using the optimal strategy discussed below is 0.47% and Net Entertainment casinos and 0.55% at Galewind casinos. If the player does not play optimally this figure will rise.

The House Edge of the Jackpot bet is dependent on the payable the casino is using and the size of the Jackpot, but our observations place the House Edge value between 31.50% and 56.44%. For further information regarding the house edge for both the main game and the Jackpot bet see Beating Bonuses (<http://beatingbonuses/oasis.htm>).

Optimal Strategy

The most important aspect of correct strategy while playing Oasis Poker is not to play the Jackpot side bet unless it is over the breakeven values listed above. As the Jackpot theoretically should never exceed the breakeven point this means the player should never play the Jackpot bet. Even if the Jackpot value was above the breakeven value you should be aware that this bet has an extremely high variance and it's highly unlikely that the regular player will ever hit the Jackpot, meaning that realistically the regular player will be playing with a far higher house edge.

The Optimal Strategy for Discard decisions when playing Oasis Poker is relatively straight forward. Unlike Video Poker games the fee for replacing cards makes discarding a poor choice except in a small number of situations, namely;

- When the player holds four cards of a Royal or Straight Flush and their hand is not a Straight or a Flush. (Discard the one non-Royal/Straight Flush card)
- When the player holds four cards of a Flush and does not have a Pair. (Discard the one non-Flush card)
- When the player holds four cards to an Outside Straight* and does not have a Pair. (Discard the one non-Straight card)

This strategy can be improved on with a little added complexity by discarding;

- When the player holds four to a Flush with a 22 through 66 pair and the dealer's upcard is of higher rank than the pair. (Discard the one non-Flush card)
- When the player holds four to an Outside Straight* with a 22 or 33 pair and the dealer's upcard is of higher rank than any cards the player holds. (Discard the one non-Straight card)
- When the player holds four to an Inside Straight* without a pair and the highest card of the

Straight is 10 or more with the dealer's upcard of lower rank than any card in the Straight.

* An 'Outside' Straight is four cards that are numerically adjacent meaning that two different cards would create a Straight (i.e. 6, 7, 8, 9). An 'Inside' Straight would be four cards that could make a Straight with a gap in between meaning only one card rank could complete the Straight (i.e. 3, 4, 6, 7).

The above is only the strategy for the Discard decision.

For the Fold/Call decision the decisions are similar to Caribbean Stud Poker and as such are too complex for all but the most dedicated player to memorise. A simplified version of this strategy would see the player Call with any hand of Ace/King/Jack/8/3 or better. This results in a house edge 0.1% higher than the full optimum strategy. For full Optimum Strategy you can use our Strategy Calculator;

Fairness Calculator

Below you can find a calculator to allow you to check the fairness of your wins/losses when playing Oasis Poker.

*This fairness calculator will assume that you've been playing with the optimal strategy detailed above. If you have not then the calculator will NOT return accurate results.

Winning Strategies

Offline

Hole Carding, Steering or Sorting

Unlike Blackjack the techniques used to gain an advantage over the game of Caribbean Stud Poker in the offline environment are not nearly so widely discussed. Gaining information on dealer's hole cards – be that via edge sorting, steering or hold carding – can produce a player advantage as long as the information is used to alter the player's strategy. Even with information on up to two of the dealer's hole cards and an optimised strategy the player still has a substantial disadvantage (nearly 2%) so you need to have knowledge of at least 3 of the dealer's hole cards before this is a worthwhile game. With perfect knowledge of all four dealer hole cards the strategy is trivial – Call, any winning hand or hand where the dealer will not qualify – though it may be worth playing some losing hands to avoid unusual/suspicious folding decisions where you hold a strong hand. With knowledge of only three hole cards or imperfect knowledge of four cards the strategy is more complex.

The rarity of being able to obtain information on 3 or more of the dealer's hole cards and the high skill level involved ensure that only the most diligent of professional players are ever likely to come across this information and it should be emphasized that the risks involved in gaining less than perfect information are likely to be substantial.

The best source of information on how best to play with additional information can be found in James Grosjean's 'Exhibit CAA: Beyond Counting'. The author provides the full and correct Optimal Strategy for Caribbean Stud Poker for each of the different scenarios where additional information can be gathered. This book is widely considered the Bible for the professional player and as such is not a worthwhile investment for anyone other than a full time professional Advantage Player (not to mention it requires a professional reference to obtain).

Optimum Strategy and Sharing Hand Information

Offline the rules of Oasis Poker prohibit players sharing information about their hands. Online it's certainly possible to share hand information if a multi-player tables could be found without the casino being aware of it. However given the prohibited nature of this activity in the offline game we would not like to comment on the ethics of engaging in such activities. As such the following information is for use at the player's own risk – we do not encourage players to share information while playing Oasis Poker. We're also not aware of any multi-player options in the online environment and include this information simply due to the easy modification from Caribbean Stud Poker.

While the House Edge of Caribbean Stud Poker cannot be reduced enough to give a player advantage without more hands being played than we are aware of being available online (at least 7 hands), given that the Discard decision substantially reduces the overall House Edge of the game, it may be possible to gain a Player Edge at Oasis Poker if enough additional hands are

known.

According to James Grosjean you would need to have information on a full 7 hands and the dealer's up card (36 cards in total) alongside a playing strategy optimized to the additional information to gain an edge of 2.374% over the house. 6 or less hands and the house retains the edge. Even with complete information the strategy required to obtain this edge is far too complicated for human application. Grosjean has developed a count system that could be feasibly applied by a team of human players that achieves a player advantage of 1.34%. We have neither the desire, the inclination, nor the permission to republish the details of this count system, but interested parties should look to get hold of Grosjean's book 'Exhibit CAA: Beyond Counting'. It should be stated that the opportunities for application of this system are extremely rare and very likely not worth the effort for anyone but the most dedicated professional player.

In the Optimal Strategy section of this article you will find our 'Strategy Calculator'. This calculator has an option to generate the Optimum Strategy when additional cards are known. Simply check the 'Enter Additional Removed Cards From Deck' option and AFTER you've entered your hand and the dealer's upcard, click on the cards that you are aware of.

Online

There are several methods of legitimately gaining an advantage playing online Oasis Poker games. By and large these involve the use of promotions, bonuses and comp point systems as the games by themselves – assuming the game is functioning in a correct fashion and there are no errors in the paytable – will not provide any additional information about the cards and shuffles after every hand.

It should be noted that online advantage play is not specific to Oasis Poker and in recent years the wagering requirements for player's choosing to play any table game has inflated to the point that Oasis Poker is now often a sub-optimal choice for the player. For more information on beating online casinos see BeatingBonuses.

Rishi Sunak indicou que os jovens podem enfrentar restrições ao acesso a financiamento ou carta de condução se eles recusarem fazer o serviço nacional, pois ele enfrentou um teste na TV dos eleitores.

Questionado durante um período de perguntas da sobre quais sanções as pessoas poderiam enfrentar por se recusarem a participar na política conservadora do serviço nacional obrigatório para todos os jovens com 18 anos, o primeiro-ministro apontou "licenças ou acesso ao

financiamento".

Questionado se isso poderia significar negar cartões bancários aos jovens, ele respondeu: "Há muitos modelos diferentes mr jack bet aposta toda a Europa".

Em seu horário de meia hora no show, seguindo Keir Starmer Ed Davey e John Swinney o Partido Trabalhista Liberal Democrata (LDR) líderes do partido nacional escocês Sunak também foi repetidamente desafiado sobre por que as pessoas deveriam confiar nos conservadores depois 14 anos às vezes caóticos mr jack bet aposta exercício.

Ele recebeu gritos de "vergonha" depois que se recusou a dizer manteria o Reino Unido na convenção europeia sobre direitos humanos.

Ele também foi desafiado por revelações sobre supostas apostas na data da eleição geral, dizendo que estava "incrivelmente irritado" com a questão.

O primeiro-ministro foi questionado por que o Brexit estava "ausente" do atual manifesto conservador, uma pergunta a qual provocou aplauso da audiência mr jack bet aposta York.

Pressionado nas listas de espera do NHS, ele admitiu que o governo "não fez tanto progresso quanto eu gostaria", mas insistiu mr jack bet aposta coisas estavam melhorando. Perguntado se

isso tinha convencido-o ; O questionador respondeu: " Não." Outro membro da audiência - um médico – então atacou Sunak sobre seus planos no NNS dizendo "As pessoas estão sofrendo".

O tom cético foi definido pela primeira pergunta a Sunak, que observou uma rápida sucessão de cinco primeiros-ministros conservadores incluindo as seis semanas no cargo da premiê Liz

Trusse: "Estou perguntando se você nos confessaria esta noite mesmo com um pequeno constrangimento para liderar o Partido Conservador?".

Sunak insistiu que as pessoas deveriam julgá-lo por conta própria, mas foi então perguntado porque os jovens devem confiar nele dado o "shenanigans com a festa Tory". Fiona Bruce

apresentadora do show disse: "Há um tema emergindo".

Em seu horário de meia hora antes da Sunak, Starmer também foi questionado sobre uma série complicadas questões com um membro do público chamando "toda a retroalimentação nas políticas trabalhistas".

Starmer deu uma resposta otimista, dizendo que decisões difíceis eram necessárias e caracterizando a pessoa como sendo entre reduzir as listas de espera do NHS ou remover taxas estudantis.

"São escolhas políticas", disse ele, chamando a si mesmo de 'político do senso comum' e acrescentando: "Estou dizendo o que são antes das eleições para as pessoas se decidirem".

O líder trabalhista enfrentou uma polêmica sobre se ele estava sendo sincero quando elogiou Jeremy Corbyn durante as eleições de 2024 como alguém que faria um "ótimo" primeiro-ministro.

Depois de desviar a questão dizendo que não esperava ganhar o Partido Trabalhista mr jack bet aposta 2024, como fez antes, Starmer disse: "Eu estava fazendo campanha para um partido trabalhista e era político do Trabalho".

Pressionado por Bruce para uma resposta sim ou não sobre se ele quis dizer isso, Starmer indicou que acreditava Corbyn teria sido melhor do seu oponente conservador : "Olhe o que temos - Boris Johnson".

Questionado sobre os direitos dos transgêneros e as diferenças dentro do Partido Trabalhista mr jack bet aposta relação à questão, Starmer enfatizou que queria reunir o público nas questões

divisivas. Ele contrastava isso com a decisão de Sunak para fazer uma "piada trans" no parlamento? ganhando aplauso...

Davey, o primeiro líder a ser grelhado enfrentou uma audiência de oposição sobre seu partido no governo da coalizão 2010-15 s com um membro do público ganhando aplauso ao acusar os líderes Lib Dem por terem "aperfeiçoado as austeridades dos Cameron e Osborne".

Outro questionador provocou aplausos perguntando como os jovens poderiam confiar nos Dem Lib quando eles haviam quebrado uma promessa de introduzir taxas.

Davey admitiu que "não estava orgulhoso" de algumas das políticas promulgadas, dizendo uma lição aprendida no período da coalizão foi o fato do partido ter prometido mr jack bet aposta 2010 "o quê não poderíamos entregar".

Da mesma forma, Swinney foi questionado sobre a sucessão de escândalos recentes para seu partido. Um dos interrogadores disse que "destruiu-se do alto". O líder da PNS afirmou ter percebido o fato dele precisar "reconstituir confiança das pessoas na Escócia".

Ele também foi pressionado sobre se o SNP continuaria a pressionar pela independência, caso não conseguisse uma maioria de assentos na Escócia mr jack bet aposta Westminster.
