[poker pca 2024](#)

Introduction

Oasis Poker (sometimes incorrectly referred to as Caribbean Stud Poker or Caribbean Poker, which is a different game) is a 2 casino poker game, meaning that it's derived from classic player vs player poker, but instead the player plays against the 2 house. Oasis Poker is a derivative of Caribbean Stud Poker that allows the player to discard undesirable cards to receive 2 a replacement. Oasis Poker is played with a standard 52 card deck.

We are aware of Oasis Poker being offered at 2 Net Entertainment, Betsoft, GameSys and Galewind casinos.

Play Structure

Initially the player places an

'Ante' wager and the dealer will deal out 2 5 cards to the player and themselves. All but one of the dealer's cards are dealt face down (often referred to as 'Hole' cards). The player then has to make the decision to either Fold their hand – losing their 2 Ante wager – discard up to 5 cards or 'Call'. Where the player chooses to discard cards they will be 2 charged a fee equal to the Ante bet for each card they exchange. This fee is not a bet and 2 will not be returned regardless of the outcome of the hand. If the player chooses to Call – either before 2 or after discarding cards - they have to place a bet twice the size of the Ante wager then the 2 dealer's hole cards are revealed and the hands are compared.

Hand Comparison

Oasis Poker ranks hands according to a hierarchy common to 2 poker games which is explained below (strongest to weakest);

* Royal Flush –

The Ace, King, Queen, Jack and Ten cards 2 all of the same suit.

* Straight Flush – five

numerically adjacent cards of the same suit (Example – 4, 5, 2 6, 7 and 8 of Diamonds). Where both the player and dealer hold a Straight Flush the hand with the 2 highest card is considered the winner.

* 4 of a Kind – four cards of matching rank (Example - 7 of 2 Hearts, Clubs, Diamonds and Spades). Where both the player and the dealer hold 4 of a Kind the hand with 2 the higher rank is considered the winner.

* Full House – three cards

of the same rank and two cards of 2 a different but matching rank (Example – 8 of Hearts, Clubs and Diamonds and Jack of Spades and Hearts). Where 2 both the player and dealer hold a Full House, the hand with the higher rank 3 of a Kind is 2 considered the winner.

* Flush – five cards of the same suit (Example – Ace, 8, 5, 2 and Queen of 2 Spades). Where both the player and dealer hold a Flush the hand with the highest card is considered the winner. 2 Where the highest card is matched the second highest is consider and so on.

* Straight – five numerically adjacent cards 2 ignoring suit (Example – 7 of Spades, 8 of Spades, 9 of Clubs, 10 of Diamonds and Jack of Diamonds). 2 Where both the player and dealer hold a Straight the hand with the highest card is considered the winner.

* 3 2 of a Kind – three cards of the same rank with 2 unmatched cards (Example – 9 of Spades, Clubs 2 and Hearts with any two other cards that are not the 9 of Diamonds or a matching pair). Where both 2 the player and dealer hold a 3 of a Kind, the hand with the higher ranked 3 of a Kind 2 is considered the winner.

* Two Pairs – two

sets of two cards of matching rank with one unmatched card (Example 2 – 4 of Clubs and Hearts, 8 Clubs and Spades and a fifth unmatched card). Where the player and dealer 2 both have two pairs, the hand with the highest pair is considered the winner. If both hands have matching top 2 pair, the higher of the two lower pairs is considered the winner. Where both pairs are matched, the hand with 2 the higher 'Kicker' (final unmatched card) is considered the winner.

* Pair - two cards of matching rank with

three unmatched 2 card (Example – 6 of Clubs and Hearts and any three other cards that are not the six of Spades 2 or Diamonds and are not of matching rank). Where the player and the dealer hold a matching pair, the hand 2 with the highest Kicker card wins. If the Kicker also matches, the hand is decided by the second Kicker then 2 the third if the second Kickers also match.

* High Card – any five unmatched cards ranked as the highest card 2 (Example – 5 of Spades, 9 of Clubs, 7 of Clubs, 2 of Hearts and Ace of Diamonds would be 2 considered 'Ace High').

In the instance where both the dealer and player have hands of matching value by the above table 2 the hand is considered a push and the player's bets are returned.

Payouts

As with many other poker based casino games, there 2 is a qualification hand for the dealer to play. As such payouts vary depending on whether the dealer qualifies or 2 not. The dealer qualifies if their hand is Ace/King or better.

If the player loses all bets placed are lost. If 2 the player Folds they lose their Ante bet. If the player wins payouts are decided as follows;

* If the player 2 wins

and the dealer does not qualify the Ante bet is paid out at 1 to 1 while the Call 2 bet pushes.

* If the player wins and the dealer does qualify the Ante bet is paid at 1 to 1

2 and the Call bets is paid according to the following payable;

Hand GameSys Payout*

Payout Royal Flush 100 to 1 100 2 to 1 Straight Flush 50 to 1 50 to 1 Four of a Kind 26 to 1 20 to 1 2 Full House 8 to 1 7 to 1 Flush 5 to 1 5 to 1 Straight 4 to 1 4 2 to 1 Three of a Kind 3 to 1 3 to 1 Two Pairs 2 to 1 2 to 1 2 Pair 1 to 1 1 to 1 Ace/King 1 to 1 1 to 1 House Edge XXX 0.47%

* This payable 2 is only used on the 'Without House Edge' version of Oasis Poker. It should be noted that when playing the 2 Without House Edge games that the house take a 10% cut of any winnings at the end of the session.

Alternative 2 Discard

Rules

Galewind software offer an alternative discard rule. Instead of being charged a full Ante bet for each card discarded 2 the charges for discarding different numbers of cards are as follows;

Number of cards discarded Cost 1 1xAnte 2 2xAnte 3 2 3xAnte 4 2xAnte 5 1xAnte

With this rule Galewind software also make an adjustment to the Call bet payable;

Hand Payout Royal 2 Flush 100 to 1 Straight Flush 50 to 1 Four of a Kind 20 to 1 Full House 6 to 2 1 Flush 5 to 1 Straight 4 to 1 Three of a Kind 3 to 1 Two Pairs 2 to 2 1 Pair 1 to 1 Ace/King 1 to 1 House Edge 0.55%

Jackpot Bet

The GameSys, GamesOS and

Galewind software Oasis Poker 2 games also offer a side bet referred to simply as the 'Jackpot' bet. This side bet is optional but if 2 the player chooses to place the Jackpot bet it costs R\$1 and the results are based only on the player's final 2 hand (after any discard/replacements). The payouts for the Jackpot bet are provided below;

Hand Hand

Probabilities GameSys* GamesOS Galewind Royal Flush 2 0.00000153908 1000 1000 Jackpot
Straight Flush 0.0000138517 500 500 10% of Jackpot Four of a Kind 0.00024 200 200 500
2 Full House 0.001441 70 100 100 Flush 0.0019654 50 60 50 Straight 0.003924646 40 40 3 of
a Kind 0.021128451 2 25 Jackpot Range NA NA 25000-110280* Break Even Value NA NA
218009.7

House Edge 3.05% 51.69% 31.50%-56.44%*

* This payable is 2 used for both the normal and 'Without House Edge' versions of Oasis Poker at GameSys casinos.

**The Galewind website

lists the 2 theoretical minimum House Edge for the Jackpot bet as 24.04% which would equate to a Jackpot size of R\$135793.56. Our Jackpot 2 range is based on the reset value and the maximum value we've seen.

Calculating the House Edge and Break Even value 2 for the Jackpot Bet

It is possible calculate the House Edge and break even value for any jackpot value at the 2 Galewind game simply by using the Hand Probability figures.

To

calculate the House Edge we multiply the Paytable values by the 2 probabilities, sum the results and subtract the remaining possibilities. So if we have a Jackpot value of 94000 the calculation 2 would be as follows;

$94000 \times 0.00000153908 + 9400 \times 0.0000138517 + 500 \times 0.00024 + 100 \times 0.001441 + 50 \times 0.0019654 - (1 - (0.00000153908 + 0.0000138517 + 0.00024 + 0.001441 \times 2 + 0.0019654))$

$0.14467352 + 0.13020598 + 0.12 + 0.1441 + 0.09827 - (1 - 0.00169639)$

$0.4309795 - 0.9998303609 = -0.3626$

So the House 2 Edge for this Jackpot size is 36.26%

House Edge*

The House Edge of Oasis Poker using the standard payable and across the 2 full round of wagering (Ante bet, Discard fees and Call bet) and assuming

that the player plays using the optimal 2 strategy discussed below is 0.47% and Net Entertainment casinos and 0.55% at Galewind casinos. If the player does not play 2 optimally this figure will rise.

The House Edge of the Jackpot bet is dependent on the payable the casino is using 2 and the size of the Jackpot, but our observations places the House Edge value between 31.50% and 56.44%.

For further information 2 regarding the house edge for both the main game and the Jackpot bet see Beating Bonuses (<http://beatingbonuses/oasis.htm>).

Optimal Strategy

The most important 2 aspect of correct strategy while playing Oasis Poker is not to play the Jackpot side bet unless it is over 2 the breakeven values listed above. As the Jackpot theoretically should never exceed the breakeven point this means the player should 2 never play the Jackpot bet. Even if the Jackpot value was above the breakeven value you should be aware that 2 this bet has an extremely high variance and it's highly unlikely that the regular player will ever hit the Jackpot, 2 meaning that realistically the regular player will be playing with a far higher house edge.

The Optimal Strategy for Discard decisions 2 when playing Oasis Poker is relatively straight forward. Unlike Video Poker games the fee for replacing cards makes discarding a 2 poor choice except in a small number of situations, namely;

- When the player holds four cards of a Royal or 2 Straight Flush and their hand is not a Straight or a Flush. (Discard the one non-Royal/Straight Flush card)

- When the 2 player holds four cards of a Flush and does not have a Pair. (Discard the one non-Flush card)

- When the 2 player holds four cards to an Outside Straight* and does not have a Pair. (Discard the one non-Straight card)

This strategy 2 can be improved on with a little added complexity be discarding;

- When the player holds four to a Flush with 2 a 22 through 66 pair and the dealer's upcard is of higher rank than the pair. (Discard the one non-Flush 2 card)

- When the player holds four to an Outside Straight* with a 22 or 33 pair and the dealer's upcard 2 is of higher rank than any cards the player holds. (Discard the one non-Straight card)

- When the player holds four 2 to an Inside Straight* without a pair and the highest card of the Straight is 10 or more with the 2 dealer's upcard of lower rank than any card in the Straight.

* An 'Outside'

Straight is four cards that are numerically 2 adjacent meaning that two different cards would create a Straight (i.e. 6, 7, 8, 9). An 'Inside' Straight would be 2 four cards that could make a Straight with a gap in between meaning only one card rank could complete the 2 Straight (i.e. 3, 4, 6, 7).

The above is only the strategy for the Discard decision.

For the Fold/Call decision the decisions 2 are similar to Caribbean Stud Poker and as such are too complex for all but the most dedicated player to 2 memorise. A simplified version of this strategy would see the player Call with any hand of Ace/King/Jack/8/3 or better. This 2 results in a house edge 0.1% higher than the full optimum strategy. For full Optimum Strategy you can use our 2 Strategy Calculator;

Fairness Calculator

Below you can find a calculator to allow you to check the fairness of your wins/losses when playing 2 Oasis Poker.

*This fairness calculator

will assume that you've been playing with the optimal strategy detailed above. If you have not 2 then the calculator will NOT return accurate results.

Winning Strategies

Offline

Hole Carding, Steering or Sorting

Unlike Blackjack the techniques

used to gain an 2 advantage over the game of Caribbean Stud Poker in the offline environment are not nearly so widely discussed. Gaining information 2 on dealer's hole cards – be that via edge sorting, steering or hold carding – can produce a player advantage 2 as long as the information is used to alter the player's strategy. Even with information on up to two of 2 the dealer's hole cards and an optimised strategy the player still has a substantial disadvantage (nearly 2%) so you need 2 to have knowledge of at least 3 of the dealer's hole cards before this is a worthwhile game. With perfect 2 knowledge of all four dealer hole cards the strategy is trivial – Call, any winning hand or hand where the 2 dealer will not qualify – though it may be worth playing some losing hands to avoid unusual/suspicious folding decisions where 2 you hold a strong hand. With knowledge of only three hole cards or imperfect knowledge of four cards the strategy 2 is more complex.

The rarity of being able to obtain information on 3 or more

of the dealer's hole cards and 2 the high skill level involved ensure that only the most diligent of professional players are ever likely to come across 2 this information and it should be emphasized that the risks involved in gaining less than perfect information are likely to 2 be substantial.

The best source of information on how best to play with

additional information can be found in James Grosjean's 2 'Exhibit CAA: Beyond Counting'.

The author provides the full and correct Optimal Strategy for Caribbean Stud Poker for each of 2 the different scenarios where additional information can be gathered. This book is widely considered the Bible for the professional player 2 and as such is not a worthwhile investment for anyone other than a full time professional Advantage Player (not to 2 mention it requires a professional reference to obtain).

Optimum Strategy and

Sharing Hand Information

Offline the rules of Oasis Poker prohibit players 2 sharing

information about their hands. Online it's certainly possible to share hand information if a multi-player tables could be found 2 without the casino being aware of it. However given the prohibited nature of this activity in the offline game we 2 would not like to comment on the ethics of engaging in such activities. As such the following information is for 2 use at the player's own risk – we do not encourage players to share information while playing Oasis Poker. We're 2 also not aware of any multi-player options in the online environment and include this information simply due to the easy 2 modification from Caribbean Stud Poker.

While the House Edge of Caribbean Stud Poker cannot be

reduced enough to give a player 2 advantage without more hands being played than we are aware of being available online (at least 7 hands), given that 2 the Discard decision substantially reduces the overall House Edge of the game, it may be possible to gain a Player 2 Edge at Oasis Poker if enough additional hands are known.

According to James

Grosjean you would need to have information on 2 a full 7 hands and the dealer's up card

(36 cards in total) alongside a playing strategy optimized to the 2 additional information to gain an edge of 2.374% over the house. 6 or less hands and the house retains the 2 edge. Even with complete information the strategy required to obtain this edge is far too complicated for human application. Grosjean 2 has developed a count system that couple be feasibly applied by a team of human players that achieves a player 2 advantage of 1.34%. We have neither the desire, the inclination, nor the permission to republish the details of this count 2 system, but interested parties should look to get hold of Grosjean's book 'Exhibit CAA: Beyond Counting'. It should be stated 2 that the opportunities for application of this system are extremely rare and very likely not worth the effort for anyone 2 but the most dedicated professional player.

In the Optimal Strategy section of this article you will find our 'Strategy Calculator'. This 2 calculator has an option to generate the Optimum Strategy when additional cards are known. Simply check the 'Enter Additional Removed 2 Cards From Deck' option and AFTER you've entered your hand and the dealer's upcard, click on the cards that you 2 are aware of.

Online

There are several methods of legitimately gaining an advantage playing online Oasis Poker games. By and large these 2 involve the use of promotions, bonuses and comp point systems as the games by themselves – assuming the game is 2 functioning in a correct fashion and there are no errors in the paytable – will not provide any additional information 2 about the cards and shuffles after every hand.

It should be

noted that online advantage play is not specific to Oasis 2 Poker and in recent years the wagering requirements for player's choosing to play any table game has inflated to the 2 point that Oasis Poker is now often a sub-optimal choice for the player. For more information on beating online casinos 2 see BeatingBonuses.

No mundo dos jogos de azar, as cartas são uns dos itens mais utilizados e populares. Desde o clássico jogode blackjack por outros muito modernos - como no poker – é possível encontrar uma grande variedade que opções em blackjack 21 3 entretenimento com envolvem mãos! Mas também E se soubermos combinas das carta da forma inteligente? É pode aumentar nossaS chances para ganhare; consequentemente até obter maiores recompensaes:

Existem diversas formas de apostar em blackjack 21 3 combinações, dependendo do jogo Em questão. Alguns jogos permitem que os jogadores combinem cartas a forma A obter uma mão vencedora; enquanto outros exigem e o jogadorcombinam carta para formar um conjunto específico de figuras ou números".

Combinando Cartas no Blackjack

No blackjack, é possível combinar cartas para obter uma mão vencedora. Por exemplo: se você

receber um 10 e o 6 como suas duas primeiras cartas pode também combinar essas mãos em blackjack 21 3 formar outro 16; Se ele achar que é melhor chegar perto de 21 sem passar desse valor), será pedir mais outra Carta da tentar obtenção sua mão vencedor!

Além disso, é possível combinar cartas no blackjack para obter um "blackjacker natural", que é quando as duas primeiras cartas do jogador somam 21. Isso acontece porque o jogador recebe 10 e uma As como suas últimas mãos! Quando isso ocorre também o jogo recebeu automaticamente a vitória ou (em blackjack 21 3 alguns casos), Uma recompensa adicional:

blackjack 21 3 :giros gratis bet365

No final da temporada, Arne Slot espera que ele possa rir sobre a derrota na semana passada para Nottingham Forest. Desde essa performance lamentável Liverpool fez um trabalho leve de Milão no Champions League e bateu Bournemouth blackjack 21 3 uma resposta perfeita ao primeiro revés do mandato dos holandeses

Onde Forest fez Liverpool um desempenho inferior com uma exibição disciplinada, Bournemouth permitiu Ryan Gravenberch e seus colegas do meio-campo para ditar a partida blackjack 21 3 seguida ofereceu até o abrigo que terminou no concurso. Luis Díaz assumiu responsabilidade pessoal por causar muito dos danos de dois objetivos; Darwin Núñez acrescentou mais três pontos à prova: banir as memórias há sete dias atrás!

O Liverpool terá pensado que eles estavam blackjack 21 3 outro jogo de teste após uma abertura cheia quatro minutos, no qual Ryan Christie foi reservado para um erro sobre Díaz dentro 20 segundos do primeiro apito e Antoine Semenyo teve o objetivo proibido. O winger pensou ter dado Bournemouth vantagem surpresa depois dos bons trabalhos feitos por Justin Kluivert permitiram ao jogador deslizar com as bolas até chegar à final enquanto ele ponderava pela segunda derrota consecutiva na Premier League como casa da liga inglesa

O árbitro assistente não viu nenhum problema com o objetivo, apenas para VAR silenciar os fãs que fizeram a viagem de 524 milhas da costa sul reconhecendo as claras desvantagens. O aspecto mais irritante do Bournemouth foi à falta necessidade dos Semenyo estarem na frente das jogadas

Guia Rápido rápido

Como faço para me inscrever blackjack 21 3 alertas de notícias sobre esportes?

Kepa Arrizabalaga chegou a Bournemouth por empréstimo do Chelsea na janela de transferência esperando, desesperada para oferecer alguma evidência da razão pela qual ele já foi o goleiro mais caro blackjack 21 3 toda história futebol. Ele fez uma série estonteante salvadas agradáveis manter fora dois tiros Díaz e rapidamente sufocou um Mohamed Salah chance Tudo isso esquecido quando Ibrahima Konaté montou blackjack 21 3 bola longa à frente; Arrizabala apenas pensou que poderia vir reivindicá-lo além dele: "Acha".

Darwin Núñez comemora blackjack 21 3 frente aos torcedores de Liverpool.

{img}: Peter Powell/Reuters

O erro ainda estava a tocar na cabeça quando Salah e Trent Alexander-Arnold combinaram no meio da linha. A parte traseira completa correu 30 metros até o campo de batalha, deslizando um passe para Díaz que colocou uma bola sob Arrizabalaga pelo segundo gol do Liverpool blackjack 21 3 menos dos três minutos; se alguém estivesse preocupado com as repetições das derrotas à Floresta os seus medos tinham sido aliviados
