Our journey began several years ago, and since then, we have learned a lot and grown tremendously.

In this engaging account, you will learn about the twists and turns we experienced while building our empire from scratch. We will share insights into our founder's tale, our company's growth, challenges overcome, successes achieved, and future aspirations. Get ready to embark on a captivating journey with Pixbet.

Founder's Story

Meet our founder and visionary, Caio Aguiar, a passionate entrepreneur who identified a lucrative niche in the Brazilian market during the early 2010s. Sports betting was gaining popularity, and Brazilian enthusiasts craved a safe, user-friendly, and legal online platform for sports prediction and gambling. Mr. Aguiar recognized a golden opportunity to cater to Brazil's colossal gaming community.

Driven by sheer determination, Mr. Aguiar assembled a talented team of experts specializing in communications, finance, programming, marketing psychology, and legal aspects. These diverse individuals shared a vision of creating an unparalleled online environment for sports enthusiasts, as specified by the Constitution and Statutes of Pixbet.

Initial Obstacles

As any startup confronts, we faced numerous challenges during the early days. Building an exceptional team and earning the trust of investors were significant accomplishments. Being a new business in a competitive market required us to differentiate ourselves through unprecedented services.

Moreover, Pixbet strives to forge partnerships with national and foreign organizations. By sponsoring reputable sporting events and teams, the community recognized our mission and valued responsible gaming.

Ambition, prudence, and technology usage paved the road to success for Pixbet. By adapting to the times, our website and intuitive app effectively solidified our brand, showcasing our forward-thinking approach. We maintained a steady course and invested in modern web designs, mobile-friendly systems, advanced AI security, convenient banking options, as well as user-friendly functionality. Understanding customers' desires is essential, so we provide exceptional support and respond thoughtfully to feedback. We achieved phenomenal numbers across Google, app

shops, and our platform through active social networking. Remarkable growth, invention, alliances, and a committed staff have all combined to make the corporation prosper since January 2024. Over six million active and Latin American clients have downloaded our applications from digital stores. Evolution and advancements shaped the technology of sportsbooks. Pixbet leads the market and focuses on the most significant variables to cement our foothold. Where could we make considerable development strides? We address client concerns cleverly by presenting banners with upcoming bids and presenting promotions and jackpots clearly. Here comes webmaster assistance a reality, boosting income activity after incorporating the Content app within a mobile counterpart officially via Google Play. Here, Pixbet has a record 34% increase in Pixbet impressions on both platforms after eight months of testing compared to historical periods, summing up various insights on the business insights from Google Ads. Before December of 2024, they had 61,330,895 conversions. We put our seal of approval on every page saying who approved it. Content can be read with minimal interruptions in our modern structure. Mobile and web templates for Pixbet were developed. A list of the game types included, comprising one page of each accessible Pixbet betting app. Sliding forms provide all the same entertainment and content that animated screens would. Our expert content hub showcased everything a spectator would find intriguing about sportsbooks in sleek, current full screen touch banners. While remaining consistent with style on other pages, extra promotions caught the reader's eye. Since animations required more time and system resources, Pixbet turned them into animated games. Currently, you may register directly on Pixbet's homepage and apps. Along with the redesign, we introduced animated sites. Here are snapshots of our first animated banner as homepage adornments. A/B testing and automating internal communications reduced customer service timing from seven days to one. Automation continues dominating Pixbet. Self-learning AI uses robotic work transparency models powered directly from the BI's platform for instant and common Tier 1 voicebot inquiries from our virtual assistants. Real humans helped Tier 2 and 3. Because our internal assistance team had expertly responded to our most valuable queries (lead scoring model) and second-screen content without leaving the assistance app, boosting effectiveness. Brazilian A/B Testing took approximately seven days when our communication volume was significant among departments. We hired overseas providers, totaling nearly R\$140,000 per month. Today this A/B test is automatic and generates more effective outlandish than previously MV, achieving 3x cost-effectiveness, based on in-house developments and third-party providers. Reduced cost! In beta testing and learning from customer responses and A/B voice AI tests with impressive 5% engagement, I gave the green light to leave. Given the chance Pixbet has to monetize audio, as websites do, ad auctions, from our AI interfaces, and business-to-business 28, A/B, AI testing scenarios were enabled throughout the last quarter of the World Cup. GPT3 Chat Bot Development Since over 904 B DC's of WhatsApp use Android, they still leverage webcore's Droid 2 for improved audio ad experiences. We reinvented our Tier 1 voicebot of 65 human operators working part-time on Zendesk live chat (55 Android app, four iOS HH) during the World Cup month. After three months following Pixbet's R\$9 million dollar stake in iSpeech (\$1,000 daily), R\$6M went the remaining cost to iSpeech as USD 150K until R\$5.8 million is converted back and that contract should close because converting will no longer happen. Earnings increased after app auto reply on Zendesk. Costs total million USD for Pixbet's iSpeech-Chat incorporation via APIs. We pay R\$1,000 a day to our contact center. Instead of using Pixbet, Pixbet's audio solution results directly from self-learning transcribing AI using resources based on 1Communicate resources used previously with in A/B Android instant games developed at Riskaplytics.
