Highlining is a slackline discipline that is practiced at great heights, between mountains, buildings, bridges or whatever.

It is a great 9 challenge and a slackline discipline in which the mental game and mindset are far more important than the technical and 9 physical ability.

To really know what is highlining you probably have to try to stand on one or, maybe, if you 9 get to see quite decent slackliners crumble when facing this new context and challenge, you'll get a pretty close idea 9 of what it means for the one on the line.

This form of slackline provides an incredible adrenaline rush when tried 9 for the first time and has a great impact on the spectators as well.

With the exception of highline freesolo, where 9 the athlete is purposely unsafe, the highliner is permanently secured by a harness, attached to the main slackline line and, 9 at the same time, to a lifeline, called the backup.
