Live Roulette Advantages

Live Roulette is the opportunity to play one of the most exciting casino games right from your home. But your home comfort is not the only advantage of a live roulette game. You may play your favorite game anytime, day or night, eat while playing pancakes, sip your favorite beer and wear your lucky white shorts with red hearts — nobody minds it.

The main advantage is that the dealer is alive and you can control the game and his actions. You do not need to rely on a random number generator (RNG), which is used to control the result of all standard online casino games.

Random Number Generator (RNG)

When you hear about a

random number generator, you may get the feeling that it was invented specifically for online casinos. No, it was not. In fact, the RNG technology was first used long before in brick-and-mortar gambling houses. Do you remember old video poker machines, or slot

machines? Well, it was random numbers generators. Some people still are skeptical about how fair the games based on RNG are. But don't blame RNG — it is a machine — blame the owners.

Modern online casinos use the built-in RNG technology which is checked by the independent auditors. Each casino is ensuring that in all offered games the RNG is good. After all, the reputation costs more than some hundreds of dollars gained through deception.

Live Game Online

RNG technology is of a high level of security, but many players do not quite understand it and, consequently, do not trust RNG games fully. For doubting players, a live game is an ideal option. You watch a professional croupier rolling the ball and spinning the real roulette wheel, so you just bet and relax.

Video

cameras broadcast every dealer's step and move live, so you literally control the game.

Live Roulette creates the true atmosphere of brick-and-mortar casinos in Las Vegas and Monte Carlo. So, get comfortable and fix yourself a favorite drink, check your bankroll — if it is OK, the game is ready for you.

Take a dip in your personal

Monte Carlo atmosphere just from your cozy armchair!
