Information about roulette

Roulette is one of the most popular games, in both online and brick-and-mortar casinos. If you want to enjoy roulette without risking your money, pick one of the games on this list and start playing.

All of the games are identical to

those you can find in online casinos when playing for real money. They have the same design, features and payout ratios, with the only difference being the fact that you are playing just for fun in a demo mode.

If you want to learn more about roulette and

free roulette games available on our site, you can also read more about:

Learn roulette rules before playing

Online roulette games you can play for

free are a great way to get to know the game of roulette and its rules. However, it doesn't hurt to learn more about the game, which you can do by reading our article about roulette rules. It will teach you everything you need to know to play roulette.

Fortunately, that's not necessarily needed. Roulette is a very simple game.

You basically just need to place a bet on any number or other sections on the roulette table layout and wait for the result of the spin. You can't influence the result of the game and almost all bets have the same return to player, so the only thing you can influence is the volatility (by changing the types of bets you place).

Note: We

mentioned that almost all bets have the same RTP. There is a bet on American roulette on five numbers (0, 00, 1, 2 and 3), which has the worst payout ratio you can get on a roulette table. If you ever play roulette for real money, you should definitely stay away from this bet, and ideally from American roulette in general, as well. Check out our full list of roulette odds to learn more about the differences between various types of roulette bets.

Free European, American and French roulette games

That brings

us to the types of roulette you can play. There are two main types of roulette:

European roulette – This type of roulette has 37 sections on the roulette wheel (0 and numbers from 1 to 36).

– This type of roulette has 37 sections on the

roulette wheel (0 and numbers from 1 to 36). American roulette – This type of roulette has 38 sections on the roulette wheel (0, 00 and numbers from 1 to 36).

The number of

possible outcomes is different, but the multiples of your bet you get when you win are the same. That means American roulette has a worse RTP (94.74%) than European roulette (97.3%). You should therefore play European roulette whenever it's available, because your chances of winning are quite a lot higher. Of course, this doesn't really matter when playing just for fun, but it doesn't hurt to pick the better version nevertheless.

Besides European and American roulette, there is also French roulette. It

is very similar to European roulette but has some additional rules in favor of the player, which make this type of Roulette player even better for players in terms of minimizing the casino's advantage. Feel free to read our article about differences between various types of roulette if you want to learn more.

Note: It's easy to find an

American or European roulette to play for free, while free French roulette games are scarcer. French roulette is mostly available in live dealer versions, which are generally not available in a demo mode. You should be able to find a French roulette game in many of casinos with live games we have in our database though.

Can you play

free roulette on mobile devices?

Not all versions of free roulette in our database are

playable from mobile devices, but many of them are. If you want to see only games which can be played using mobile phones and tablets, you can use the filter "Mobile Devices Supported".

Note: Unfortunately, some of the games still need a Flash player to run,

which is the reason why they can be played only on computers. However, popular older games often get reworked using newer technologies, so some games you can't play from mobile devices at the moment might be accessible to you in the future.

Try out our

roulette strategies

If you want to try doing something else than just randomly placing

bets and spinning, you can take a look at our roulette strategies. We came up with interesting ways of playing roulette which yield good results in the long run. Of course, they will not make you be a long-term winner on roulette (that's impossible), but they can be used to gain a good chance to reach a predetermined result.

We also

wrote an article about so-called scam roulette strategies like Martingale that are often presented as a surefire way to make money and "beat" the casino. Of course, that's not true, as you'll sooner or later lose your entire bankroll if you follow these strategies. Feel free to try them out when playing roulette for fun but stay away from when playing for real money. Read the article linked above to find out why.

O tambor do revólver é girado e fechado, de modo a que localização do projétil seja desconhecida.

Os participantes apontam o revólver para suas cabeças e atiram, correndo o risco da provável morte caso o projétil esteja na câmara engatilhada.

A forma do jogo pode ser tão variada quanto o número de participantes ou seus motivos (demonstrações de bravura, suicídio, etc.

), mas tipicamente um único projétil é colocada num revólver de seis disparos, resultando numa chance de 1 em 6 (ou 17%) de o revólver disparar o projétil.

O tambor do revólver pode ser girado novamente para reiniciar as condições de jogo ou o gatilho pode ser puxado continuamente.

As apostas internas (apostas interiores) são apostas

colocadas na porção interior da grelha numerada da mesa. Ao jogar uma aposta interna, isso significa que está a apostar nos números de 0 a 36. Na variante americana do jogo, há o "duplo zero" adicional, que também é uma aposta interna.

Donald Trump ya ha asegurado los delegados necesarios para ser nominado nuevamente para la presidencia de los EE. UU.

La reelección de Donald Trump como presidente de los EE. UU. ha estado en duda durante mucho tiempo y su nominación para un tercer mandato no es una excepción. ¿Por qué Trump necesita un nuevo compañero de fórmula en 2024?

El exvicepresidente Mike Pence no será el compañero de fórmula de Trump en 2024 después de un desacuerdo sobre los resultados de las elecciones de 2024. ¿Importará la elección de vicepresidente de Trump en las elecciones de 2024?

La elección de vicepresidente no tiene un gran impacto en las elecciones y, aunque un mal candidato puede ser perjudicial, generalmente no hace una diferencia notable en las elecciones.

¿Cuántos vicepresidentes han llegado a ser presidente?

Quince vicepresidentes han llegado a ser presidentes, incluidos ocho que asumieron la

presidencia debido a la muerte del presidente en funciones.

¿Quiénes son los principales candidatos a vicepresidente de Trump en 2024?

- Greg Abbott: gobernador de Texas, Trump lo describió como una "opción" después de unirse a Fox News para una entrevista en febrero de 2024.
 - Tucker Carlson: comentarista político conservador, Carlson es un aliado ideológico fuerte de Trump.
 - Ben Carson: ex secretario de vivienda y desarrollo urbano bajo Trump, un neurocirujano de éxito que podría atraer el voto negro aspiracional.
 - Ron DeSantis: gobernador de Florida, miembro destacado del Partido Republicano con tendencia a ser controvertido y Trump lo ha descrito como "Ron DeSanctimonious".
 - Nikki Haley: ex embajadora de la ONU bajo Trump y ex gobernadora de Carolina del Sur.
