Roulette live Table Game by ezugi Review

Ezugi is a reliable online casino B2B provider

launched in 2012. Its library stands 3 out due to the range of high-quality live dealer games, including Ezugi live roulette, which is available in several variations.

3 Basically, the games have standard rules and are streamed from studios with common equipment. However, the Ezugi online gambling provider 3 did its best to add some ultimate solutions to its live dealer catalogue. As a result, Ezugi live dealer roulette 3 games for real money include the OTT (over the table) option when the game is streamed from a land-based casino 3 with real players, extra multipliers of up to 1000x on Ultimate Roulette, and loads of other perks. On this page, 3 you'll find out everything about live roulette from Ezugi, find the best online casinos to play Ezugi live roulette, and 3 find out about engaging real dealer roulette games from other providers.

Ezugi live roulette: basic rules & aspects

The roulette game has 3 been around

for decades, and the fact that it's now available through desktops and mobiles is astonishing compared to land-based 3 casinos, where you could access only several variations of this game. However, modern online casino providers believe that it's still 3 not the limit, so live games are the modern gambling trend. In general, the game's concept is simple: players choose 3 betting positions and put chips of a corresponding value there, after which the dealer spins the roulette wheel and throws 3 the ball.

When the ball stops on a certain position, you find out the results of the game, and in some 3 cases, several of your bets can be winning at once. For example, when you bet on number 6 and on 3 the black colour and the ball stops on the black 6, you get paid for both of your bets. The 3 Ezugi casino provider follows this basic concept in its games, though the provider can game innovative options and helpful tools, 3 including statistical details, in addition to the presence of real dealers.

Ezugi live dealer

roulette interface

To make Ezugi live dealer roulette 3 games accessible and straightforward, the vendor has delivered a quite simple and understandable interface

with all the tools you may need to place real money bets. The interface includes a betting table, chips, a widget to open statistical details, and an icon to open the provider's lobby. In addition, there are settings to modify sound effects. Players may optionally tip the dealer with a selected amount by clicking on the tipping slot. There is also a chat panel for sending messages to the dealer and even to a support team. The chat box is collapsed into a small panel when not in use.

Depending on the roulette

version you choose, these tools may be somewhat different, but in general, it all works like this.

**Balance & betting tools**

In most cases, your balance will be displayed below

the screen. Next to it, you'll find space to reveal your total bet, the winning amount, and the Game ID. The chips of different values are above. You can choose any of these chips once it meets the limits of your balance by clicking on it and putting it on the betting table then. If it's within your bankroll, you can place several different bets during a single round. Before the bets are closed, you can undo the previous action and return the chip to its initial place.

**Statistics**

A helpful feature for Live Roulette

Ezugi strategies is the statistical section, where players can track the results of the previous rounds and use this data to plan further bets. The section displays the previous winning outcomes, including numbers and colours. The roulette stats appear on clicking a related button in the toolbar and display five hot and cold numbers, the latest ten winning numbers, a wheel map and a table grid showing the occurrence of all winning numbers in the last 100 spins. Besides, you'll see percentage details regarding dozens, red/black, odd/even, 1-18/19-36, and other outcomes. The most frequent results are highlighted, though we should note that it doesn't mean that such outcomes are guaranteed in the future since all the rounds are random.

**More games**

Ezugi online

casino provider has a wide range of live dealer games, be their roulette variations or other types. To see this range, open any Ezugi live game and push the 'More Games' widget above on the right. You'll see a list with categories to choose from.

Conveniently, these types are sorted by sections which include Popular, Roulette, Blackjack, Baccarat, Poker, and Dragon Tiger & Sic Bo. Among the other games from the provider, you can experience Blackjack Live, Baccarat Live, Dragon Tiger Live, Teen Patti, and more. In addition, you can see the number of users playing this game right now and the minimum bet for each game to plan your bankroll accordingly before you start playing.

**Video and audio**

The dealer and roulette wheel are shown from two camera positions, with the option to switch between them. The first camera gives a front view of the dealer, and the second camera is fixed above the wheel and produces a bird's-eye view. The cameras do not toggle automatically at different game phases, and the action is displayed from a fixed point of view all the time. The quality of the video stream is above average, and players may adjust it by choosing the Low and High video options under the Settings menu. The sound is OK, too, and the audio options include volume control and muting.

**Ezugi roulette betting options**

To play Ezugi live dealer games for

real money, you need to deposit and use corresponding betting tools to place your bet and get started. The betting table and the value of the chips may vary depending on the roulette type you pick, but in general, the gameplay and navigation are similar, so you

can follow these steps.

The main betting table

The betting table is the main tool you

use to place bets per round. The table is complex, so you can pick varied betting options. They are 3 betting on numbers (1 to 34 or zero), rows (3 to 36, 2 to 35, or 1 to 34), dozens (1st 12, 2nd 12, or 3rd 12), even/odd, 1 to 18 or 19 to 36, red/black, or even/odd. Click on a certain chip and then click on the table position to place this stake when the bets are accepted.

Additional betting options

For online casino players

who prefer more complex Ezugi roulette bets, there is a section with extra betting options. Voisins bets are wagers on 17 numbers, which are 22, 25, and all the other numbers between these two wheel positions on the roulette wheel. Orphelins wagers are bets on eight numbers on the two-wheel segments without covering the previously mentioned Voisins du Zero and Tiers du Cylindre positions. Tiers cover 27 and 33 numbers, as well as the numbers lying between them on the side of the wheel opposite zero. Neighbours include neighbouring positions to the number you bet on, and you regulate how many numbers will be added by pushing '+' and '-'. Please note that each of these bets deducts a certain amount from your balance, so placing a set of such bets may be quite costly, and it's an option for high-roller players with a large bankroll.

Ezugi live roulette payouts

When you play Ezugi roulette games for real

money, and your betting positions are winning, you get paid accordingly. Straight up (a bet on a certain number) is the most rewarding, though the odds are quite low compared to even money bets like red/black or even/odd. Here are the payouts applied to corresponding bets:

Straight Up – 35:1

– 35:1 Split – 17:1

– 17:1 Street – 11:1

– 11:1

Corner – 8:1

– 8:1 Line – 5:1

– 5:1 Column – 2:1

– 2:1 Dozen – 2:1

– 2:1 Red/black –  
1:1

– 1:1 Even/odd – 3 1:1

– 1:1 1 to 18/19 to 36 – 1:1

Some of these bets can work

together, for example, Straight Up with even/odd (bet on number 14 + bet on even numbers – 35:1 + 1:1). Moreover, the bet can be even more complex. When you place a set of the Straight Up on 6 + black + even + 1 to 3 18 bets, and the result is the black 6, you get paid 35:1 + 1:1 + 1:1 + 1:1, but the chances of hitting all these results at once are quite low, so be careful with such massive betting lines.

How to play Ezugi

roulette live casino games

First and foremost, pick the best Ezugi live casino online

which meets all your requirements and essential aspects, including fast payments, large payout limits, bonuses, varied games of all types, and more. Once registered to one of these sites, deposit and follow these gameplay steps:

Wait for the moment when the bets

are accepted and choose the value of the chips to determine how much you want to bet

per round Put a chip (or 3 several chips) on the betting table by clicking on the corresponding chips and table positions It's a live dealer game 3 played with hundreds of players simultaneously, so you don't have to press the Start button; just wait for the round 3 to start in real time When the round is over, your wins are displayed on the main screen and added 3 to your balance then Via the 'More Games' button, you can switch to any other real dealer game from Ezugi 3 Finally, you can withdraw wins or keep the money on the casino balance, and access varied other games

Ezugi OTT roulette: 3 what is

it?

Here's a unique feature you won't experience in any other live dealer game. The Ezugi provider launched the 3 OTT (Over The Table) option, which is an ultimate feature transferring players into one of the real casinos where real 3 visitors play with dealers while online players can place additional virtual bets. These are Portomaso, Oracle, and Casino Marina casinos. 3 Due to the OTT feature, table games at land-based casinos can be enjoyed by both physical and virtual players. Professional 3 tools to implement this include a wide choice of cameras and camera angles, as well as top tools for online 3 synchronisation.

Ezugi live dealer games: popular variations

The Ezugi online

casino provider is doing its best to meet the needs of all 3 players, so the vendor diversifies languages (eg. Thai, Brazilian, Japanese, and other options), a wide betting range for varied bankrolls 3 to play for real money and other mechanics. That's why the types of Live Roulette Ezugi games you can experience 3 include Diamond, Speed, Auto, and Ultimate variations.

Ezugi Live Diamond Roulette

Actually, it's just

traditional European roulette played in a live studio 3 where other dealers can stream more Ezugi live games behind your roulette table. The period to place bets within the 3 rounds is 15 seconds. The betting limit is R\$0.20 to R\$5000 per round, but it may vary depending on your casino. All 3 the standard betting tools, including the main table and the section for neighbour bets, are below the screen, while the 3 menu and some navigation tools are above on the right. In the menu, you can find the detailed rules to 3 play Live Diamond Roulette Ezugi.

Ezugi Live Speed Roulette

This roulette online

variation will suit players who want to have a wide 3 range of rounds within a short period of time. Here, you have 15 seconds to place your bets, and the 3 game round takes approximately the same period. This way, you can have about two rounds within a minute. In terms 3 of all the other features and payouts, they are standard, so you still enjoy a European Roulette streamed from a 3 real studio with a 97.3% RTP. And you can also play Live Speed Roulette Ezugi on mobile. Similar roulette games 3 are also offered by Evolution and Pragmatic Play providers.

Ezugi Live Auto Roulette

Mainly, the interface

and betting options of the Auto 3 version are the same, but there is one significant difference since this variation is played without a live dealer. You'll 3 see a real roulette wheel spinning in real time, and you still have the chips to place on the betting 3 table within a certain period, but the game is played automatically, which will suit those who aren't interested in the 3 presence of other people during the gameplay. Winning numbers and other aspects are announced by a robot. You can play 3 Live Auto Roulette Ezugi at bets of R\$0.10 to R\$5000 (though make sure to check the limits at your casino). Plus, there 3 is Prestige Auto Roulette (the wheel is decorated with neon lights for more atmospheric vibes) and Speed Auto Roulette (fast-paced 3 automatic version)

variations.

### Ezugi Live Ultimate Roulette

Unlike the previous versions, this one is very unusual and has some elements of live 3 shows combined with the standard roulette game. It was released in 2024, so it's not surprising that the mechanics are 3 so innovative.

If you've ever launched Lightning Roulette by Evolution, you'll understand the mechanics of playing Live Ultimate Roulette Ezugi. 3 In a nutshell, the basic gameplay and layout are similar, though the game's elements and studio decorations are all designed 3 in cartoon style.

But the main feature making Ezugi Ultimate Roulette so catchy is the presence of extra multipliers generated before 3 each round. The range of these multipliers is 50x to 1000x, and the additional feature where you can buy extra 3 multipliers (up to 3 multipliers for 10% of your bet) will let you get up to 2000x in total. Please 3 note that Straight Up pays only 28:1 here. Ezugi also added a cool option which allows a single multiplier to 3 cover several numbers, so your chances of hitting extra rewards increase this way.

In addition to these games, you may also enjoy Live Roulette by Lucky Streak, Live Roulette by Vivo, and more.

**Ezugi casino online:**

**roulette strategy**

Any Ezugi casino online game is random, and it's the first aspect you should consider. No cheating programs or 100% winning strategies since all these things don't work. However, it doesn't mean that you can't use working online roulette strategies to try to decrease the house edge and plan your bankroll accordingly. These can be betting systems, different risk levels according to your gaming style, complex bets that can potentially work together, and some basic tips. This way, you track statistical details and understand how the game 'behaves' in the long run.

**Live**

**roulette betting systems**

Varied betting systems are used to follow a certain sequence when placing real money bets. Depending on the system's concept, you'll find out when to increase or decrease your bet and by how much. Such systems can't be called a roulette strategy since they aren't based on game knowledge, but it's a good way to follow a certain gameplay plan and modify your bet accordingly.

**The most popular**

**betting system is Martingale .** It recommends players double the bet each time they lose, and when you win, you decrease the bet accordingly. This way, you spend more yet get a larger win to compensate for the bet losses.

Your betting style can also be different, depending on

your bankroll and preferences. Actually, you don't have to always stick to the same online roulette strategy, so feel free to vary the following options.

Live roulette tips

Though the gameplay features random results and you can't 3 influence them, you can still influence other details, including the ones connected with the casino online you choose and the 3 bonuses you get. Below, you'll find some basic tips for playing live Ezugi roulette:

Try to avoid American roulette

This

roulette type 3 has a higher house edge due to the presence of two zero sectors on the wheel, so you'd better pick 3 European and French roulette variations, and Ezugi is mainly focused on the European variant.
