Playing Aviator is simple. First, the player must select their preferred bet value. Next, they must wait for takeoff. As the plane flies higher and higher, the multiplier grows larger in real time. When the player decides to cash out, they hit the "Cashout" button to land the plane and collect their winnings. Be cautious; if the plane takes off the chart, you'll lose your bet.

1. Manage your finances carefully, and don't bet money you can't afford to lose.
2. Define your win limit and stop playing once you have reached it. • Wait for the right moment to cash out when the multiplier is highest.
