At work, he would get notifications for emails about staff meetings or reports, or rejections after an interview and never open them. Life was passing him by while others were investing in themselves and learning new things, getting ready for a possible job change. If they failed, it should be that they had already learnt of the new technologies, not because he was embarrassed or afraid, his friend invited him to join Blaze a year ago. Caio felt ashamed his friend had to go through all the stress and responsibility of starting afresh in an unknown world, worst still he had made nothing easier for her. Now was the age where the World was about to change itself from a tiny town to skyscrapers!
