The NFL is the most popular league in sports betting, with millions of Americans wagering at the top USA sportsbooks 3 throughout the season. From football futures odds to NFL same-game parlays and NFL props, sports betting sites have something for 3 every bettor. The Super Bowl has more wagering options than any sporting event of the year, giving fans something to 3 look forward to with their sports betting bankroll.

NFL odds

are constantly moving due to betting action, injuries and other factors, 3 but monitoring the NFL odds board is one way to make the best NFL bets possible. Football odds are also 3 a useful way to gain an edge in NFL survivor pools and NFL office pools. Here are several football sports 3 betting terms to know:

Alternate lines: Every NFL game has

alternate lines, as sportsbooks post different spreads and totals with adjusted 3 odds.

For example, if a team is favored by one touchdown, many sportsbooks will offer odds on the team to 3 win by at least 10 points instead.

American odds: American odds are the

most common odds used in the NFL, with 3 the moneyline indicating the amount of money needed to winR\$100 (favorite) or the amount that aR\$100 wager would pay (underdog).

3 This is one of the three main types of betting odds.

Closing Line: The final odds

posted when the game begins 3 is the closing line. The live odds will then start to shift after the game begins and will generally continue 3 until the game is over.

Consensus:

The consensus line is a combination of odds from the top sportsbooks. If a team 3 is a 7-point consensus favorite, it means that most oddsmakers have the team favored by seven points.

Decimal odds: Decimal odds, 3 also called European odds, are one of the

other formats used to present betting odds. They represent the amount of 3 money someone would win for everyR\$1 wagered.

Favorite: The favorite is the team expected to win the

game outright. Favorites have 3 a negative sign in front of their spread and money line odds.

Fractional odds: British (fractional) odds are the final type 3 of odds used in

sports betting. They are the ratio of the profit won to the stake, as a 6-1 3 underdog would payR\$6 for everyR\$1 wagered.

Futures: These can be some of the most interesting odds to monitor, as they relate 3 to things such as championship winner or division winner. Most sportsbooks update their futures odds on a weekly basis, giving 3 fans a chance to see how their team stacks up in the eyes of the oddsmakers.

Home-field

advantage: One thing that 3 is a factor in every NFL game is home-field advantage, which changes the odds based on which team is playing 3 at home. Some teams have a bigger advantage than others, as their crowd noise or location can adjust the odds 3 more significantly than others.

Hook: If the betting odds have a half-point attached to them, that is called the hook. The 3 hook makes it impossible for the betting result to end in a tie, as NFL games do not have half 3 points.

Juice: Also known as vigorish or

vig, the juice is the amount factored into the odds by oddsmakers. An American 3 odds bet of -110 containsR\$10 of juice for everyR\$100 wagered.

Line movement: NFL odds generally

do not move as much as 3 other sports due to the accuracy of the betting market, but they still feature line movement due to various reasons. 3 Weather, injuries or large bets are all reasons for line movement on NFL games.

Money line: The money line is the 3 odds

related to the winner of the game with no point spread involved. Favorites have negative odds, while underdogs have 3 positive odds in an American odds format.

Oddsmaker: Someone who sets betting odds and lines is an oddsmaker. Some oddsmakers create 3 their own betting odds (originators), while other oddsmakers copy odds that are already in the market.

Over/Under: This is one of 3 the primary sets of

odds used for the NFL, with the number representing the expected points scored in the game. 3 These are also used for some futures odds, such as how many games a team will win in a season.

Pick'em: 3 If neither team is favored, the game is called a pick'em. The betting odds have not determined a favorite or 3 an underdog, so they are usually good games to watch.

Spread: The point spread levels the playing field between two teams, 3 as

it is the number of points the favorite is expected to win by. The favorite is designated by a 3 negative spread (-7), while the underdog has a positive spread (+7).

Underdog: Unless a game is a pick'em, every NFL contest 3 has an underdog, which is the team that is expected to lose. They are denoted by a positive number in 3 the betting odds.

The three primary types of betting odds are American (money line), fractional (British) and decimal (European). They are 3 alternate ways of presenting the same odds, offering the same payout in each scenario. The percentage probability of an event 3 occurring can be converted and presented in any of the odds offered.

Favorites are

always priced with a negative sign in 3 front of their spread or money line, while underdogs have a positive sign in front of theirs. If a team 3 is -6.5, they are the favorite and would need to win by at least seven points to cover the spread. 3 Their opponent would be +6.5, needing to lose by six points or fewer (or win outright) to cover as an 3 underdog.

Odds are originally set by oddsmakers, who are also called sports

traders or bookmakers. They usually adjust their odds once 3 bettors start wagering money. The odds can also be moved due to things like injuries or weather forecasts.

Sportsbooks take games 3 off the board when a star player suffers an injury, the venue changes or another factor occurs. Oddsmakers usually re-post 3 the updated line within a few hours, depending on the severity of the news. The odds are frozen so the 3 sportsbook avoids taking large wagers on odds that are likely to change.

This is

another way to reference the over/under, which 3 is the number of points expected to be scored in a game. If a game has an over/under of 45.5 3 points, it will go over the total with 46 or more points and under the total with 45 or fewer 3 points. Over/under odds are also used for prop odds, such as a player's receiving yards in a game.
