What are Age of War Games?

It is with great excitement that right at this moment we can showcase all of our visitors a classic category of strategy games online, definitely one of our most sought-after pages, where you will always be able to have timeless fun and challenges, and we're talking about the Age of War Games series!

If you are

wondering why these games need a special page, instead of simply being found on the Strategy Games page, you should know that the reason for that is because this is a classic series of flash games that began the boom of browser gaming starting with 2007.

Because the series has been around for so long, and there have been lots of iterations released over the years, we now have this dedicated page of games with Age of War, and if you're already familiar with it, start playing from the get-go, but if you're new, allow us to introduce you into the world of these amazing wars games!

Age

Of War Games: an introduction

The first game in the series had been released in 2007 by a group known as Louissi, which used to be available on Newgrounds, and the original game and its sequels were available on many websites for many years.

Considering that

flash games are no longer supported after 2024, you might be wondering where you can play them still, and the answer is our website, where they are all ready-to-play thanks to the Ruffle software we implemented for you all.

In addition to Age Of War 1 and Age

of War 2, there were two more original sequels, but which came with different titles.

One is Army of Ages, and the other one is Technical Wars, with all of the games having the awesome feature of allowing you to travel through history and do battle in various times of human civilization.

The Age of War gameplay explained:

The games basically

tower defense games, but instead of towers you have what is called a base, and the

computer also has its own base, with each of you trying to tear down the enemy base in order to win the war while making sure that your own stays up.

You use the mouse to

spawn troops that will march across the map to the enemy, both to attack their base, and for defense, because they will send troops too, so you try to intercept them. If you deplete the CPU's health bar to zero, you become the winner.

The more you battle

and win, the more powerful troops you can send, but so will your enemy, so always improve and upgrade through the ages to take the upper hand and make your own army and people the dominant force!

It's a game where you have to focus and find the best

strategies to win, but, most importantly, you need not ever give up! It's that simple, so start right now, with any game in this series, even the fan-made ones that are inspired by the originals, but don't belong in the franchise directly, since they are also tons of fun!
