The end of the boom is generally considered to be October 2006, when the Unlawful Internet Gambling Enforcement Act of 2006 (UIGEA) became law in the United States, and several online poker sites, including the industry leader at the time, Party Poker, left the United States.

The rise of online poker has contributed to it becoming one of the most popular card games in the world, but there are so many different types of poker that it can seem daunting to the beginner.

Here, Telegraph Betting introduces you to the broad concepts that unite all forms of poker and shows you how they fit together to play one of the game's most popular variants, Texas Holdem.

We'll also discuss the four main types of poker under which all poker games can be categorised.

Then, once you've got to grips with the basics, you'll find our guides to the specifics of how to play the most popular types of poker at the bottom of this piece.

How to play poker: concepts common to most types of poker

Poker-hand rankings

All games of poker are based around common poker-hand rankings which are used to decide which player's hand wins in a game of poker.

Some

poker game types will use the common hand ranking in different ways, such as making the lowest value hand the most desirable (low-ball poker).

Learn the order of strength of poker hands on our poker-hand rankings page.

Bluffing

It's possible to win poker hands without holding the best hand by bluffing your opponents.

Bluffing usually involves

projecting confidence in your hand by betting in a manner that suggests your hand is

better than it is, in the hope that your opponents will believe you and fold rather than risk taking you on in the showdown.

Forced bets

Most forms of poker require some form of compulsory bet at the beginning of a hand usually referred to as the 'ante' or 'blind'. Many forms of the game feature a small blind and a big blind, with the latter generally twice the size of the former.

The dealer

Whether you're playing physical poker at home, at a bricks-and-mortar casino, or an online casino the role of the dealer determines the order in which the blinds are put up and players make their bets. The game usually unfolds in a clockwise direction starting with the dealer.

In both

physical and online casinos the dealer is generally not one of the players so a token denotes which player is nominally the dealer for each hand. This then rotates clockwise from one hand to the next.

Betting options

Following the forced bets, the first round of betting begins. Players usually have the following betting options to use depending on their confidence in their hand.

Call — Matching another player's bet or raise

—

Matching another player's bet or raise Raise — Increasing the size of your existing bet in the same round of betting

— Increasing the size of your existing bet in the same

round of betting Fold — To withdraw from the hand, sacrificing any bets already made.

—

To withdraw from the hand, sacrificing any bets already made. Check — Until the first bet in a round of betting is placed, players can choose to check (decline to make a bet while reserving the right to bet later in the round).

— Until the first bet in a round

of betting is placed, players can choose to check (decline to make a bet while reserving the right to bet later in the round). All in — When a player doesn't have enough chips left to call a bet they can play all their remaining chips. Subsequent betting takes place in a side pot and the all-in player can only win the amount of chips in the pot when they went all-in in any subsequent showdown.

Rounds of betting

In

poker, each round of betting offers a chance to utilise the betting options outlined in the previous section, based on your confidence in your hand and your perception of the quality of your opponents' hands. The latter can chiefly be gauged by seeing how much they are betting or raising.

All types of poker feature at least one round of betting, while the vast majority feature at least two.

These rounds usually take place before

and after game events such as the dealing of the flop in Texas Holdem and allow for degrees of strategizing by players as the hand progresses. Texas Holdem and Omaha, which are so called 'community card' games, can feature up to four rounds of betting.

How to play a poker in a nutshell: a game in brief

Here we illustrate how

to play a game of poker in a nutshell. This is how to play the world's current most popular type of poker, Texas Holdem.

Dealer deals each player two cards. The small blind is placed, followed by the big blind. The first round of betting ensues, players bet according to confidence in their hand. Dealer deals three 'community cards' face up. The second round of betting begins. Dealer deals the fourth community card, also known as the turn. The third round of betting begins. Dealer deals the fifth community card, also known as the river. The final round of betting ensues. If two or more players still haven't folded, all remaining players show their cards. The winner is the one with the best hand according to the poker hand rankings.

Betting structure/limits

There are

various different ways in which betting can be structured in poker. The three structures below are the most common in online poker and are usually listed alongside the type of poker in online poker lobbies.

Pot limit (PL) — A player may bet or raise any amount up to the size of the total pot.

Fixed limit (FL) — Betting and raising must be done by fixed amounts.

No limit (NL) — A player can bet all of their chips any time it's their turn to bet.

The four main poker variations

The many different types of poker can generally be classified as falling into one of the following four categories:

Community card poker

Players are dealt a number of cards less than a complete five-card poker hand. A number of face-up community cards are then dealt with the objective that the players make the best possible five-card hand with some combination of their own cards and the community cards.

Famous varieties include: Texas

Holdem, Omaha

Straight poker

The earliest form of poker, each player is dealt a full hand of five cards. A round of betting ensues in which players can raise and reraise until the game concludes.

Famous varieties include: five-card brag, three-card brag

Draw poker

Another poker variation in which players receive all five cards at the beginning of the game, draw poker then allows them to attempt to improve their hand by discarding cards and being dealt replacements.

Famous varieties include: five-card draw

Stud poker

In stud-poker games, players are dealt their cards one by one in a specified combination of face-up and face-down cards, typically with a round of betting between each card being dealt.

Famous varieties include: seven-card stud, razz

Mercado de Nuseirat en Gaza está abarrotado después de la operación israelí

El mercado de Nuseirat, en el centro de Gaza, estaba abarrotado en la mañana del sábado. Entre la multitud estaban Asia El-Nemer, buscando una farmacia que aún tuviera stock del medicamento de su hermana, y Ansam Haroun, esperando encontrar nuevas prendas de vestir para levantar los ánimos de sus hijas durante la próxima fiesta de Eid al-Adha.

Esta parte del centro de Gaza había quedado desierta a principios de año cuando las tropas israelíes se movilizaron por primera vez, destruyendo la casa de Haroun en un ataque aéreo, pero se llenó de nuevo desde mayo, cuando más de un millón de personas huyeron al norte para escapar de otra operación en Rafah.

Una escena como el día del juicio final

"El mercado de Nuseirat siempre está abarrotado, pero ahora más que nunca debido a los desplazados internos", dijo Haroun, de 29 años, quien ahora se hospeda con un tío. Estaba mirando los atuendos para las niñas cuando comenzaron los primeros ataques aéreos israelíes y, casi sin pensarlo, salió corriendo hacia ellas.

Fuera, encontró una escena "como los horrores del día del juicio final", ya que las multitudes intentaban escapar del asalto inminente. Helicópteros y drones cuadricópteros se unirían pronto

al ataque que dejó cientos de muertos y cuerpos destrozados esparcidos por las calles, según muestran las imágenes de la zona.

"Todos estaban gritando, aterrorizados", dijo. "La calle en la que estaba era solo de 50 metros de largo, pero estaba repleta de cientos de personas, todas corriendo. Una mujer a mi lado se desmayó del terror y vi a los vendedores abandonando sus mercancías en el arcén para huir."

Un operativo de rescate israelí

El-Nemer, una ingeniera de software de 37 años originaria del norte de Gaza, se encontraba entre la multitud de personas que intentaba escapar.

"Estaba trotando por la calle con otras mujeres. Estábamos aterrorizadas", dijo. Corrieron junto a clínicas de salud y escuelas donde antes habrían buscado refugio, pero ahora las evitaban debido a los ataques israelíes contra ambos tipos de instalaciones.

Pero cuando un helicóptero apareció adelante y comenzó a disparar a las personas en la calle, y un cuatricóptero se unió al ataque, la multitud enloqueció y ella buscó refugio en una casa cercana, arrastrando a otra mujer que estaba teniendo un ataque de pánico.

No descubrirían durante horas que el ataque intenso se lanzó para apoyar a las fuerzas especiales israelíes en una misión para liberar a cuatro rehenes retenidos en apartamentos cerca del mercado. El Ministerio de Salud de Gaza dijo que más de 270 palestinos murieron y más de 600 resultaron heridos en el asalto.

Las fuerzas especiales israelíes llegaron al centro de Nuseirat en un camión cargado de muebles, disfrazadas de palestinos desplazados de Rafah, según informó el canal de noticias online Ynet, citando a medios saudíes.

Raed Tawfiq Abu Youssef, quien velaba en el hospital sobre un hijo gravemente herido en el ataque, dijo que su primo vio a los israelíes llegar en un camión y un auto. "Algunos hombres bajaron del camión, saludaron a la gente frente a la casa, entraron y comenzaron a matar a todos", dijo.

El bombardeo comenzó poco después. El ejército israelí dijo que sus fuerzas fueron atacadas durante una operación compleja y "más de 100 personas murieron"; un portavoz dijo que no sabía cuántas eran civiles.
