World Chess Championship Won GM Viswanathan Anand of India won the World Championship, September 2007 in Mecico City, a point 4 ahead of his nearest rivals, GMs Vladimir Kramnik of Russia and Boris Gelfand of Israel. Anand's final score was 'plus 4 four' (or '+4'), meaning that he won four more games than he lost. Since he did not lose a single 4 game, we can also write his score as +4-0=10, meaning four wins, no losses, and ten draws. His closest rivals 4 finished at 'plus two', both +3-1=10. The diagram shows the last position from the last game (Rd.14: Anand - Leko). 4 White has just played 20.Bg5-e3. The material left on the board is balanced, the Pawn structure is balanced, and neither 4 side has a significant weakness. The game was drawn at this point, making

Anand the new World Champion. In this 4 tutorial, we'll look at some of the crucial games and positions from Mexico City that Anand encountered on his way 4 to winning the championship. We are indebted to the Chessbase site (see the box 'Elsewhere on the Web'), especially the 4 analyses by GM Mihail Marin and the videos by Vijay Kumar of the post game press conferences. The Openings: Anand 4 Playing White (+3-0=4) The strategy of top tier chess players often uses a simple formula: Win with White; draw with 4 Black. This means that all players follow the same opening strategy. They play opening systems that maximize their chances of 4 winning with White and of drawing with Black. Mexico City was no different. The eight participants played each other twice, 4 and the four games per round over 14 rounds produced 56 games. White won 18, Black won 2, and 36 4 were drawn (+18-2=36). Anand opened all seven of his games as White with 1.e4. One opponent responded 1...c5, and the 4 other six replied 1...e5. Against those six, Anand played 2.Nf3. Two opponents replied 2...Nf6 (the Petrov [Petroff] Defense), while the 4 other four replied 2...Nc6. All four games followed the main line of the Ruy Lopez (3.Bb5 a6 4.Ba4 Nf6 5.O-O 4 Be7 6.Re1 b5 7.Bb3 O-O), and three of those four games arrived at the position shown in the diagram, known 4 as the Marshall Attack (8.c3 d5). Both the Petrov and the Marshall give Black excellent drawing chances. Black's winning chances 4 aren't very high, but neither is the risk of losing. The Petrov was played seven times in Mexico City (+0-0=7). 4 The Marshall was played four times (+1-0=3), and would have been played more often if Black hadn't sidestepped it with 4 the Anti-Marshall moves 8.h3 (+0-0=3) and 8.a4 (+2-0=0). The Openings: Anand Playing Black (+1-0=6) As Black, Anand faced 1.e4 twice, 4 answering 1...e5 in both games. In the other five games, all of which opened 1.d4, he answered 1...d5 2.c4 c6 4 twice, and 1...Nf6 2.c4 e6 three times. The 1.d4 openings provide more opportunity for transpositions between different systems than do 4 the 1.e4 openings. Four of Anand's 1.d4 games converged to the same position (1.d4 Nf6 2.c4 e6 3.Nf3 d5 4.Nc3 4 c6). Three of these games continued 5.Bg5 h6 6.Bh4 dxc4 7.e4 g5 8.Bg3 b5, reaching the position shown in the 4 diagram. Known as the Anti-Meran Gambit, it was played in five games overall (+0-1=4). Top tier players spend much of 4 their preparation studying the games of their rivals, in particular their opening repertoires. They assume that their rivals are doing 4 the same. Together with small teams of trusted assistants, everyone armed with the latest chess software and data, they probe 4 their opponents' openings looking for moves that might surprise. They also verify their own openings by looking for improvements to 4 avoid surprises by well prepared opponents. It is almost impossible for an observer to explain why a particular player chose 4 a particular opening against a particular opponent in a particular game. Much depends on the preparation of the two adversaries, 4 on their history of playing together, and on other games in the same event which have seen the most fashionable 4 openings. The choice of opening is largely psychological and only the players can explain their choices satisfactorily. Rd.2: Winning with 4 Black

Aronian - Anand; after

22.e4-d5(xP) In the first round, the eight players started cautiously. All four games were drawn in 4 less than 30 moves. In the second round, Anand played Black against GM Levon Aronian of Armenia, a dangerous opponent 4 who was fully capable of winning the event. The game started with an Anti-Meran Gambit, and followed a known variation 4 until Anand uncorked a novelty on his 17th move. A few moves later Aronian made a temporary sacrifice of a 4 minor piece, arriving at the diagrammed position. Now if the Bishop retreats with 22...Bb7, White regains the sacrificed piece with 4 23.c6, obtaining an excellent game with pressure against the Black Pawn on g4.. Anand played the surprising 22...Be5!, when White 4 was forced to continue 23.f4. After 23...Bg7 24.dxc6 Nxc5, the White Bishops were passively placed. Anand (video): 'I think he 4 missed this plan of ...Be5 and ...Bg7, or he underestimated it. In the whole game I'm playing against his Bishop 4 on e2; my Pawns on h5 and g4, and b5 and c4 control this Bishop. This turned out to be 4 the deciding factor in the game.' Aronian resigned on his 42nd move. This second

round win with Black over a 4 dangerous rival was an excellent start for the Indian GM.

Rd.5: Beating the Marshall

Anand - Svidler; after 26.Qd3-d1 Since reigning 4 World

Champion Kramnik was the only other player to win in the second round, the two pre-tournament favorites took the 4 lead, a position they maintained by drawing with each other in round three and against their respective opponents in round 4 four. In the fifth round Anand played against the Marshall Attack for the first time in the event. The diagrammed 4 position is typical of the Marshall. Black is a Pawn down, but Black's pieces, especially the Rooks, are placed more 4 aggressively than White's. A few moves earlier, Black had weakened his Kingside with 24...g5. The game continued 26...Nf6 27.a4 Ne4 4 28.axb5 axb5 29.Ra6. After tying down the Black pieces to the defense of the Queenside, Anand played Ng2-e3-f5 and broke 4 through on the Kingside. Anand (video): 'In a very complicated position at the end he spotted me a bit of 4 time. At the end the position was unbelievably complicated. Basically I tried to get a position where White is able 4 to hold onto the Pawn at the cost of a significant initiative for Black [ . ..]

When he went Nd5-f6-e4, 4 it's a pretty good plan, because suddenly I can't swap Rooks very easily. That means his attack when it comes 4 will be very strong. I reacted with a4 and Ra6, probably the only correct reaction.'

Kramnik drew his game, and 4 Anand was alone in the lead for the first time. Rd.7: Avoiding the Marshall

Anand - Grischuk;

after 16...Bc8-g4 In the 4 sixth round, while Anand and Kramnik both drew, a new front runner emerged. Gelfand won his second straight game to 4 tie Anand at 'plus two'. Faced with the possibility of playing against the Marshall Attack for the second time, Anand 4 varied with 8.a4, an Anti-Marshall move. In the diagrammed position, the Black Knight is well posted on b4, but White 4 has a stronger center. The game continued 17.h3 Bh5 18.g4 Bg6 19.d5!. With the last move, White locked the Bishop 4 on g6 out of play. Anand (video): 'I'm not exactly sure how this plan is in the opening with ...Bg4. 4 It's very forcing because I must play [h3 and] g4, but on the other hand his Bishop gets sidetracked to 4 g6. I felt that I should be better, but the tactics are quite annoying.

A bit later I realized that 4 my Bishop on b1 is trapped for a while. So it was a complex game.' The world no.1 gradually improved 4 the position of his own pieces, kept his opponent's pieces in passive positions, and broke through by sacrificing a Pawn 4 on the Queenside to invade Black's position on the Kingside. Black's d-Pawn fell and the White's strong, central d- & 4 e-Pawns were enough to ensure victory. Rd.8: Drawing with Black against the Closest Contender

Gelfand - Anand; after 10.Bc1-d2 At the

4 tournament's half way point, when all the players had met each other exactly once, Anand was again alone in the 4 lead. At 'plus three' (+3-0=4), he was a half point ahead of Gelfand ('plus two') and a full point ahead 4 of Kramnik ('plus one'). He was to play Black against Gelfand in the first game of the second half. In 4 the diagrammed position, Anand played 10...Bd6. It was a move that had been played only once before, and that Gelfand 4 had not seen. Anand (video): 'Basically I wanted to surprise Boris with this idea of ...Bd6. It's a very rare 4 move, but I'd done some work on it with some people some months back. It comes down to the Catalan 4 is a story that you play ...e5 or ...c5 or you don't. If you're not in time, you're worse. Here 4 I think ...Qb8 and ...e5 were very important moves.' The surprise worked. Gelfand played 11.Rd1 instead of the more aggressive 4 11.Bg5. The game was agreed drawn on the 20th move. When Kramnik also drew on the Black side of a 4 Petrov Defense, the three leaders retained their respective positions on the crosstable. Rd.10: Drawing with Black Against the Most Dangerous

4 Opponent

Kramnik - Anand; after 28.Qh5-h6(xP) In round nine, Anand agreed to a draw against after 21 moves Aronian's Marshall. Gelfand 4 and Kramnik both lost their only games of the tournament, stretching Anand's lead to a full point. Round 10, with 4 Black

against World Champion Kramnik, would likely be the Indian's most severe test of the event. In an Anti-Meran Gambit, 4 both players had prepared the opening and the initial moves were played quickly. Black was forced to sacrifice the exchange, 4 but received good compensation in a centrally posted Knight. In the diagrammed position Black played 28...Nf4. Anand (video): 'When I 4 played Nf4 I thought it was quite unpleasant for him, and that's when I started to feel that I was 4 better already. He can never take on g5 because of ...Ne2+ and ...Qh2+. He cannot play g3 either because of 4 ...Ne2+, ...Qd5+, and ...Rd8. On Re1, I just go ...Qd5, and so on. So I started to get ambitious, but 4 he found 29.Kh1, which is the best move. I went 29...Qd5 30.f3 Rd8 31.Qg7 Rd7, and here my Knight is 4 too strong. By playing 32.Qf8 with the threat of Rfc1, I thought I could go 32...Qd6 33.Qg7 Qd5, and then 4 it's a draw. Probably this was best. I thought 32...Ne2 was very strong because I'm also restraining Rfc1, but completely 4 missed 33.Rfe1.' Kramnik in turn missed the best move. With a lot of fight left in the position, but tired 4 from the constant tactical complications, the players agreed to a draw on the 41st move. Rd.11: Clinching the Title (Almost)

Anand 4 - Morozevich; after 30...Rh4-h5

Anand now led by a point with four rounds to be played. In the next round 4 he had White against Morozevich, a daring player who is always full of creative tactical ideas. Against Anand's 1.e4, the 4 Russian played 1...c5, the only game in Mexico where Anand faced other than 1...e5. Play from the diagrammed position continued 4 31.Qf1 Rh4 32.Qg2 Rh5, bringing the game back to the diagram. If Anand had now continued 33.Qf1, the players would 4 most likely have repeated the same move sequence, leading to a draw by triple repetition. Instead he played 33.Nxa6. GM 4 Marin (analysis): 'An important moment in modern chess history. Anand's most dangerous trailers, Kramnik and Gelfand, had finished their games 4 hours earlier and a draw would have maintained his comfortable lead in the tournament. The ambitious decision to play on 4 will lead to a slightly irrational position, without any safety net for White. Therefore, Anand deserves the highest praise for 4 the way he chose to climb up to the highest peak of the chess pyramide. This is the kind of 4 World Champion the public needs. Anand's reward for his daring play was to pull ahead of his nearest rival by 4 a point and a half. With only three games remaining, this was an almost insurmountable lead. Rd.13: Holding a Bad 4 Endgame

Grischuk - Anand; after 40.Kd4-c4 Most people believe that chess is not a game of chance. By any strict definition 4 of the word 'chance', they are probably right. Chess players know better. No matter how far ahead they calculate variations, 4 or how solid their position seems to be, there is always a chance that they have overlooked something. Going into 4 the penultimate round, Anand's lead was still a full point and only bad luck could steal the victory from him. 4 After Grischuk's 40.Kc4, as shown in the diagram, Anand played 40...Kc8. White's unexpected 41.Rc2! put him in great danger of 4 losing. Anand (video): 'I blundered in the Rook ending, but the funny thing is I might not have lost anything 4 anytime at all. Even if I had gone correctly [via e7] to f6, he would have gone to e3, checked 4 on f3, and we would have had exactly the same position as in the game. It's funny that you can 4 blunder something and still end up in the exact same situation. I don't know if it's a draw, but I 4 remembered once I drew with [Kramnik] in Monaco like this. You keep attacking one Pawn on the Queenside and one 4 on the Kingside, back and forth. It's a typical idea in Rook endings. It seemed to hold this time. I 4 didn't see a clear win for him and I didn't see a clear draw for me, but somehow it was 4 enough. It's difficult to play a tournament without one bad day, and for me today was the day I 4 chose to play some lousy moves. At least it was not enough.' Anand held the position by simplifying into an 4 endgame of Rook and a-Pawn vs. Rook and h-Pawn, sacrificing his Rook for Grischuk's a-Pawn, and shepherding his h-Pawn to 4 the promotion to its eighth rank, where his opponent was forced to sacrifice his own Rook. The draw was a 4 question of a tempo: one tempo more and White would have won.

### **Top Democratas se reúnem com o Primeiro-ministro de Haiti e prometem apoio adicional**

Top Democratas no Congresso se reuniram na terça-feira (28) com o primeiro-ministro de Haiti, Garry Conille, e prometeram pressionar por assistência adicional dos EUA após a chegada de uma missão internacional de polícia apoiada pelos EUA na ilha do Caribe, com o objetivo de restaurar a estabilidade no país, que enfrenta a violência de gangues há meses.

A administração Biden pretende liberar R\$100 milhões para a missão, da qual os EUA são o maior financiador, o que ocorrerá apesar da oposição republicana. No entanto, o primeiro-ministro disse aos democratas que mais dinheiro será necessário, e rapidamente.

#### **Crítico momento**

"Esse é um momento crítico", disse o primeiro-ministro vai bet palpito gratis entrevista na tarde de terça-feira, após reuniões com legisladores e funcionários de instituições financeiras internacionais, onde expressou gratidão pelo apoio já comprometido e destacou a necessidade urgente de investimento contínuo.

"Eu preciso ter o financiamento necessário para implementar rapidamente infraestrutura básica, reparar infraestrutura básica e garantir que os serviços estejam disponíveis para as pessoas", disse.

#### **Prioridades claras**

Sheila Cherfilus-McCormick, democrata da Flórida e única membro do Congresso de origem haitiana, disse vai bet palpito gratis entrevista que os democratas estão garantindo que conhecem as prioridades do primeiro-ministro e como podem abordar as necessidades de segurança e econômicas, além de garantir que o financiamento esteja presente, pois há uma janela curta de sucesso.

Oito meses após a autorização das Nações Unidas para o uso de forças internacionais para serem implantadas no Haiti, a primeira onda de forças da Missão de Apoio à Segurança Multinacional, liderada pelo Quênia, chegou vai bet palpito gratis 25 de junho para tentar acabar com a violência e retomar o controle do país.

Em Washington, o novo primeiro-ministro e membros de seu gabinete também se encontraram com funcionários do governo Biden, incluindo o secretário de Estado Antony J. Blinken. Em cada parada, o primeiro-ministro, que brevemente serviu como primeiro-ministro vai bet palpite gratis 2011, detalhou seus planos para guiar o país para fora da violência e corrupção e restabelecer as normas democráticas.

O governo de transição, que foi nomeado por um conselho, tem como objetivo realizar eleições antes que seu mandato expire vai bet palpite gratis 7 de fevereiro de 2026.

"Eles estão ansiosos para criar uma situação para que possam entregá-la a um novo governo, mas precisam de ajuda", disse o representante Gregory W. Meeks de Nova York, o democrata de maior patente no Comitê de Relações Exteriores.

"Eles precisam de recursos".
